## Customer Reviews

"Jim Rohn is one of the most profound thinkers and mind-expanding individuals I've ever listened to." -- Les Brown  
"Jim Rohn is outstanding! He is among the most polished, professional speakers, with a message everyone should hear." -- Brian Tracy  
"Jim Rohn's unique delivery and style put him head and shoulders above the rest." -- Harvey Mackay

Jim Rohn WORLD-RENOWN BUSINESS PHILOSOPHER Jim Rohn has been hailed over the years as one of the most influential thinkers of our time, and has helped motivate and train an entire generation of personal development trainers as well as hundreds of executives from America's top corporations. For over 40 years Jim Rohn has focused on the fundamentals of human behavior that most affect personal and business performance. Jim is the standard to which those who seek to teach and inspire others are compared. He possesses the unique ability to bring extraordinary insights to ordinary principles and events, and the combination of his substance and style captures the imagination of those who hear or read his words. Jim Rohn has now shared his message with over 6,000 audiences and 4 million people. He has conducted his seminars and workshops throughout Europe, Asia, Australia and Africa, as well as in most principal cities in North

America. He is a member of the National Speakers Association and a recipient of both its coveted CPAE Award, given to him in 1985 for outstanding performance and professionalism in speaking and the 2004 National Speakers Association Masters of Influence Award.

“There are always just a few important principles that account for most of the progress we make in our lives. It is these "basics" that have the greatest effect on our health, our happiness, and our bank accounts. This is not to suggest that there are only a few life-changing ideas that will affect us, for surely there are many. What I am suggesting, however, is that you begin your search by focusing on the five fundamentals we will examine in this book. It is these few among the many that will account for the biggest share of the results you will achieve. You will never be able to master every aspect of your life. To try to become the master of every detail of your life will only lead to frustration. Instead, why not go after the few among the many, the few that will make the most difference, the fundamental subjects that will have the greatest impact in determining the quality of your existence?”~ Jim Rohn from *The Five Major Pieces to the Life Puzzle* Focusing on the few among the many. That's always a wise place to start! Jim Rohn was an inspiration to many of today's leading self-development teachers--from Tony Robbins and Les Brown to Mark Victor Hanson and countless others. In this book, he shares his "Five Major Pieces to the Life Puzzle." They are, in brief, creating a life PHILOSOPHY, getting your ATTITUDE right, taking disciplined, diligent ACTION, producing solid RESULTS and optimizing your LIFESTYLE. Let's take a quick look at a handful of my favorite Big Ideas: 1. Your Life Philosophy - What is it? 2. 86,400 Ticks - You hear that clock ticking? 3. Finish Before You Start - Can you see it? 4. Design the Future - And live into it. 5. Pain Weights - Ounces and tons To find 250+ more reviews visit <http://bit.ly/BrianReviews>

This book was great. It's easy to read, no filler, and you can literally take something from just about every sentence he writes. It's pretty much a goldmine to understand how to improve your life and has the ability to grant you instant clarity on a lot of stuff. I think it helps to have read at least one thicker self-improvement book that covers more, as this is around 120 pages and covers only 5 areas that he deems most important/having the most impact in your life, but I'm not listing that as a negative thing. This could be the first one you've read and you will still enjoy and understand it. I just liked being able to compare some of the things he talked about to what I already learned from a previous book (different author). Don't hesitate to pick this gem up! I actually enjoyed the fact that it was not too long because it allowed me to immerse myself in the entire book in one sitting!

This book really cuts to the chase and challenges you "where you live". It's an easy read at only 121 pages. However, its content is Rich. The first chapter deals with your philosophy about life. It points out the "little things" in your life, referred to as disciplines, that have a great impact on your future. Other chapters deal with your Attitude (about life and circumstance), your Activity (what are you doing to get you there), your Results (are you tracking them and making adjustments), and your Lifestyle (How we choose to live and design our lives). My favorite is the definition of Failure: Failure is nothing more than a few errors in judgement, repeated every day. Why, you ask, would someone make an error in judgement and be so foolish as to repeat it, every day? Because, they don't think it matters. A definite MUST READ, if you are interested in rescuing your life from Failure to Certain Success.

This book is very concise. When I first received it in the mail, I was amazed at how small it was. There aren't many pages, but then again, there isn't much fluff. The book is jammed-pack with inspiration quotes and advice for living life. The author is one of the leading experts on self-help. This is the guy that Tony Robbins got most of his material from! The chapters are split into 5 sections: \* Attitude \* Philosophy \* Activity \* Results \* Lifestyle Some of my favorite quotes: "A few small disciplines practiced every day = formula for success." (p. 37) "Change comes from two sources: Inspiration and desperation." (p. 12) "Both the poor and the wealthy have the same 24 hours of opportunity." (p. 47) "Repetition is the mother of skill." (p. 62) There are many others throughout the book and those are just a few of the gems. This will probably be one of the last motivational books that you'll ever need!

Another masterpiece by the late Jim Rohn, who continues to inspire each and every day. While he may no longer be with us, his legacy is firmly entrenched in the ideas and contributions works like these have left behind.

This stuck with me, "Through our daily activity and discipline we provide the push to propel us toward success" page 75. There were so many wonderful eye-opening points to take action on in this book that I actually suggest that you buy a copy, not borrow or use from the library. I have so many highlights in mine I cannot get enough of sharing this title with others. This is one of the few books that will actually change your being. I love all of the work and books of Jim Rohn and really hope each of his followers will keep his name and work alive as we had done for Napoleon Hill and others. I personally read this book in (1) day on my annual Summer silent retreat. It made me cry,

have ah ha moments, take action on a few new ideas that are unfolding just amazingly, and even made me text 10 people to go find the book online and purchase. I'm all in.....[...]
