While planning a trip to Barcelona I read or evaluated every book and i find this one, I thought it was the best. This was a great reference book for our first trip to Barcelona. It breaks down the city by activity and by area and even has a suggested itinerary if you're not sure where to go next.

This book is written about the beautiful places in Spain. Descriptions are where you should go, which one is attractive, most viewed places in Spain by the tourist etc. If you are planning to go on Spain this guide is helpful for you.

You can't be serious! I want my money back!Is this your child's third grade attempt at a book report or his first essay on "How I spent my Summer Vacation".This cannot be reviewed because it is neither a book NOR is it a guide by any stretch of the imagination
