Self Reliance - What Do Mean You Didn't Know?: African-Americans Achieving A Well Spent Life

Synopsis

In the wake of America's long term fiscal deficit crisis and the strain that it places on the viability of the country's safety net systems like Social Security and Medicare coupled with the fact that most corporations are no longer establishing or funding traditional pension plans, the need to understand this notion of self reliance in the 21st century is now more important than ever for African Americans. A failure to recognize the role that you must play in securing the life that you have envisioned for yourself and your family could prove disastrous. In the end, I can't say that nobody really cares anymore but certainly, nobody should care more than you.

Book Information

Paperback: 136 pages

Publisher: Calbo Publishing; 1 edition (April 23, 2013)

Customer Reviews

Cal Elam is the CEO of Elam Financial Group, an investment advisory and comprehensive wealth management firm located in Columbia, SC. He has conducted numerous seminars and has appeared on several radio and TV segments giving sound advice on various financial and wealth management topics.

Easy on the eyes, and written in a language and tone anyone will understand, appreciate and refer. Personally as an independent insurance agent it has given me a new charge in the New Year. As an African American it highlights many of the situations I run into and find so discouraging with African Americans today. This should required reading at all HSBUs in the nation and all African Americans need to spend the time reading, studying and applying this information. Great job Sir.

I found this book to be a great read and recommend to all. The book provides sound financial advice from the reality and perspective of the average African American. This book also explores the subjects that need to be discussed in our community to move forward in closing the disparities in income and wealth generation. A must read!
