The Psychology Of Prejudice And Discrimination

Synopsis

This is the first comprehensive textbook on prejudice with a strong psychological research base. Whitley and Kite cover a broad range of topics--from race and ethnicity to gender, sexual orientation, and ageism. By integrating theory and research with students' own experiences, the authors increase students' awareness of influences that shape prejudices. As students evaluate research results and their personal, subjective beliefs, they develop an appreciation of scientific evidence regarding stereotypes, prejudice, and discrimination.

Bernard Whitley is Professor and Chair of the Department of Psychological Science at Ball State University. His research focuses the role of individual difference variables in prejudice. He is author, coauthor, or coeditor of four other books. He and Dr. Kite have collaborated together on numerous research projects. Mary Kite is Professor of Psychological Science at Ball State University. Her research focuses on stereotyping and prejudice toward women, gays and lesbians, and older adults and has published widely in those areas. She is a past president of the Society for the Teaching of Psychology and currently serves as Secretary-Treasurer of the Midwestern Psychological Association.

Just what my teacher asked for! I downloaded this book on my mac to use on the Kindle to save money. This is the first time I have ever done that and I will be doing that again! It allows me to type keywords and zoom in. I think this was better than buying the actual book! There are no pictures

and the text is very plain, but the material is so interesting! I got an A in this class and I would say that is partly because I had a great online book!

Repeats a lot of the information over and over again. Long winded chapters.

It arrived in good condition and is what was described.

Let's be realistic. This is a textbook and is several hundred pages. You buy it for class and won't use it for much else. It has a lot of interesting insight, but a lot of the information just seems like personal taste and every chapter repeats and recycles the same points as the previous one.

great price fast service !

Great text! I usually write silly reviews on , because WHY NOT, but this text is important. I personally think that ANYONE WHO PLANS TO INTERACT WITH ANYONE, EVER should take a course based around this text. It's important for people to understand one another so we can coexist peacefully. I hope to one day see more coursework like this incorporated throughout all life stages.

first few chapters of book lost there binding

I was required to have this textbook for a class, but I would recommend it as a regular read for anyone and everyone.
