Used this book in children's ministry (have a range of kids from 3-11), and the kids were put off by

the pictures. I read many reviews, stating how beautiful the pictures are, and, while they are realistic looking, I agreed with the kids. Specifically, there is a picture with a swirling cloud (to represent the Holy Spirit) and Adam and Eve holding a Koala. The kids in my class looked at the picture and looked at me and were like "???? They wanted an explanation, and I didn't have one. One girl was like, "That is weird!" Initially, when I ordered the book and opened it for the first time, I was very put off by the pictures as well, especially the aforementioned one. Based on the reviews, I expected something more. I did use the look inside feature, which doesn't show everything, but I had no idea that most of the pictures would have really dark backgrounds (understandable since it's a creation story, and I expected this for the first few pictures). The backgrounds in this are mostly dark throughout. I was hoping for something more colorful and bright. With a younger group, the KJV translation is a little difficult. I had to stop often to explain the meanings of certain words to the little ones in my class. So, if you are interested in this book, keep that in mind and consider the age(s) of the child/children you plan on reading to or giving this to. After such high reviews, I really have to say, yes, this follows the creation story, but I wish that I had either picked a different picture book or simply read straight from the Bible on this one.

Good book, beautifully illustrated. Love that it covers the story of creation on a child's level. Would have been a little better if it was more of a story book, but it is actually more of a verse of Genesis, and then the author kind of does a question section on each page. Resource book is definitely more helpful in actually teaching the concept of Creation to young children, as well as the Bible itself. Would use this more as a companion than an actual story book.

Lovely illustrations accompany the biblical creation narrative. I like how the illustrations include all created kinds together to show how God created in 6 days just as he said...dinosaurs are featured along with large mammals.

Great book and very colorful!

Used this book to explain the the Creation story to children while on a mission trip to Honduras. The pictured worked out very well.

You get this book for the Art. That's about it. Great gift.

I love the artwork and format of this book. I'm looking forward to reading it to my children.

use it often well done
