LSAT For Dummies

Synopsis

A detailed study guide that guarantees a high LSAT score. If you thought you left standardized tests back in high school, think again. *LSAT For Dummies, 2nd Edition* is an all-inclusive study guide arming you with tips and know-how for your next career move. This updated edition includes three full-length practice tests, a review of foundational concepts for every section, thorough explanations, and additional practice problems for all question types. Whether you're taking the LSAT for the first time or the third time, this book will provide the guidance and skill set you need to obtain a score that reflects your abilities. Instead of facing the process alone, turn to the trusted For Dummies brand for proven test-taking strategies and ample practice opportunities. Ideal for those who want to break into this increasingly competitive field, in which a high score on the LSAT lends prospective lawyers an undeniable advantage. Examines every topic and common pitfalls covered in the test, which consists of five 35-minute sections of multiple-choice questions and a 35-minute writing sample. For aspiring law school students, *LSAT For Dummies* is the most advantageous guide to increasing your score on a test that can make or break your legal aspirations.

So far so good . This book makes you think if you really want to get into law school !

Easy to read, great LSAT tips. Some info is out of date (regarding testing options). It can be used as a great reference in conjunction with other study materials. It does break info down into an easy to understand format

Good synopsis on the LSAT. I primarily use this dummies book to complement my Powerscore LSAT Bibles.

This book probably did more for me than any of the other books I used. At the very least, the facts about how the score breaks down and can be maximized made me feel better going into the test. That counts for a lot. It also includes tips and guides for the entire LSAC-backed application and

admissions process.

Great book for studying and practice tests with review to understand what you missed and why.

This book SAVED ME. Seriously, eliminating all the technical jargon made it so user friendly. I bought so many tools for the LSAT and this was the best. Buy this and a book of practice LSATs and you're set!

This book does the job! My wife is currently is studying to take the LSAT and this book series is very helpful in helping her grasp the concept of the test. Plenty of content in each book for practice testing!

Not the easiest to understand but definitely is thorough. I haven't tried any other prep books but I definitely feel like I will need to supplement this with another book.
