She helped me reach 5 and 10-year goals in less than two years. Her ability to evaluate my Practice, find the problem areas and address those areas with results, in a very short period, amazed me. I have a life outside the office and the financial freedom I hoped to have ten years from now." -Dr. James RichardsonBefore hiring Mary, we had no idea where our overhead stood. We knew something was out of whack but didn't know where to begin to find the problem. Mary evaluated our overhead, pointed out areas that were in line and areas that needed work. With her help, we now have systems in place to monitor our overhead and have the knowledge and tools to keep it in line. Also, we have fine-tuned our business office and have collections consistently at 98% or above. Our recall percentage is well above the norm, and our Hygiene department is more efficient and productive than we ever thought it could be. It is nice to have a competent, dependable Consultant who listens and will tailor Management for the individual needs of the practice." -Doctors Doug and Cathy Smith

Book not worth ~\$30.... advice in the book is pretty basic and subjects are very short, like one

paragraph short per topic. More information could be obtained on DentalTown honestly.. 2 stars only because I can refer back to the book as a quick reference if need be. not recommended for well researched dentists. Could possibly be useful to dental students who lack knowledge on this subject.

Full of great information and an easy read! Every dental office needs a copy of this great book!!

Great book. A must for owners of a dental practice!
