## Customer Reviews

Kindle only!

Its a pamphlet now a book. I was expecting it to be a book for the price I paid for. I feel cheated oh will you learn. I am afraid to buy books here now. I don't know if I am going to be cheated again.

Very informative, covers even the small details.

I am new to painting and looking for ways to make my pieces have that rustic and shabby chic look.

This book is short and to the point. Shows you the different ways and what to use. A great book for a beginner

I would not buy anything from this guy. He buys, refinishes and sells furniture in the Dallas Fort Worth Area. I took a French provincial dresser to him on April 26, 2014 and paid him \$350 to refinish it. I still don't have my dresser or my money back and he will not return calls, texts or facebook messages. There are Facebook groups with people he has ripped off and rip off reports. Just google his name and his business name.

nothing fancy, very simple terms great for a beginner. some pictures for examples. wish there were more images- not many stages of work pictured
