Customer Reviews

Everyone's psychic gifts are different. For me its in forms of symbols most of the time, dreams, psychometry, and visions. When it comes to a spirit communicating or just a general claircognizant vision that comes up, it appears as a symbol I'd say 80% of the times and thereafter its up to me to

decipher its meaning which can be very tricky and this book came in handy for me in introducing me to symbols and how I relate to it with reference to any visions or messages I receive. The other 20% is an auditory message. If the message isn't clear, then I make my guides know I need a much clearer message and I'd say they do come through an auditory message and every single message is not only relatable but accurate with whatever is happening within my life. I loved this book because it's very accessible and the format is great if I want to browse through certain topics. I just wish there were more symbols updated so I ended up purchasing a separate book based on other symbols that include sacred geometry, wider range of flowers and animals, and a wider range of numbers as they have different individual meanings. Other than that, it's pretty amazing but some symbols do need more information updated and it should be used with caution because psychic visions is one thing, but as we sleep, our subconscious mind has a rare way of creating at times veils/illusions using symbols and at times interpreting messages or warnings it has for us whereby consulting symbolism may be required but it all depends on what was occurring and in some instances symbolism may not be enough. Either way, it's a great reference book on symbolism at a good price great for beginners or anyone curious.

It's really neat, to be able to look up a symbol on the spur of the moment- the convenience of the search functions on this can't be overstated. Great, fast reference for those times that you run across something...unusual? Uncanny? Well, if you're looking at this e-book, you already know what I'm talking about. ;) Very handy, and a nifty companion for auguring. Nicely done, Clare McNaul! :)

SO FAR, I HAVE BEEN ABLE TO FIND ANYTHING I HAVE LOOKED FOR. FREQUENT ABILITY TO RETURN TO AN INDEX IS AN EXCELLENT FEATURE.

Reading about the symbols in the book helped give me clarity when I started to see certain birds on a consistent basis.

I love the meanings and find them right on. I like that at the index you can return to the table of contents.

Robert Lanza has come up with a wonderful "theory of everything." It makes sense and my intuition tells me there is much truth in what he says. I will be looking at every news release on quantum physics from now on to see if science proves his theory valid. Worth the read -- open your mind to all

possibilities.

ok

In my creative pursuits this book is helpful and fun to use. Writing and art making can get a connection boost or deeper meaning by looking up any given symbol. I really enjoy this book and it is easy to navigate.
