The Physiology Student's Self-Test Coloring Book

Synopsis

Medical practitioners, students, and anyone else who requires a vast and detailed working knowledge of human physiology should get this self-test coloring book. It includes: More than 350 detailed line illustrations that clearly convey the structures and functions of the body and its systems, and how they interrelate Succinct text that explains the physiology of each body area that is illustrated Labels left blank so that you can test your knowledge of anatomical names as you color Pages that lay flat for easy coloring Answers located at the bottom of the page As you color in the illustrations, you'll imprint the shape, locations, and function of each body part and system, making memorization, visualization, and recall much easier later. It makes a great educational and study tool because the completed drawings provide a concise, interactive reference to human physiology that can be utilized again and again.

Customer Reviews

James Hicks is Professor of Ecology and Evolutionary Biology at the University of California, Irvine. He has more than 25 years of experience in research and teaching courses in physiology to undergraduates, graduate students, (MS and Ph.D. level), and a four-year period teaching medical students at the Creighton School of Medicine.

Rey helpful, love the drawings

An excellent study aid.
