## Customer Reviews

I really love this book and the fantastic insights that it reveals when it comes to self-discovery and revealing more of why we are here. If you are looking for a clearer way to understand life's burning secrets and the mystery that surrounds your life, this is a book I'd recommend to anyone. The author writes in an easy-to-follow style that anyone can relate to. As the author states: *The Answers Within* challenges you to rethink what you know about life and invites you to reconnect with your soul's truth and spiritual power. "This is certainly true, and the tools and self-exploration exercises will enable you to tap into the universal energy that brings greater joy, happiness and peace of mind. In *"The Answers Within"* you will be able to:- Rediscover your life's purpose and surrender to it- Realign with your intuition- Master your inner energy- wake up to what

it is you were born to do- Tap into your greatest potential- Know your heart and spiritual essence. This book guides you to travel within to discover your truth, greatest desires, and potential so that you can make the bold life changes that will bring you fulfillment. You can re-energize, transform and create greater levels of abundance. A definite recommended read!

I was experiencing a situation that caused me a lot of stress and I believed it was completely out of my control. I wasn't reading the book looking for answers to that; in fact, I don't recall that it was on my mind at all. While I was reading Sharon Kirstin's book "The Answers Within" I came to a section that felt like it was speaking directly to me. Then, quietly, something came down and touched my left shoulder. I felt the stress float away, as if it would be taken care of. It felt calming and peaceful. I was amazed beyond words. The next day, a solution presented itself and now a few weeks later, the situation is resolved. "The Answers Within" holds a special energy and sure knows how to make magic happen. I will keep this book forever and am reading (listening) a second time already.

I recommend The Answers Within. We are all in a journey to find meaning in our life and sometimes the right message at the right time can make a profound impact on your life. This book gave me that kind of impact. After reading the book, I have a different outlook on my life, including family relationships, career and my other daily routines. Another benefit to reading that the author eloquently details is a plan to understand where you are and why you do the things you do. I now have better clarity of direction to keep moving forward. I appreciated performing the in-depth exercises to help me focus and take action on improving.

Learn how to express your soul's essence and become the creator of your reality. Sounds good? The author helps us shift perspective and stop arguing with reality. "Loving people live in a loving world and hostile people live in a hostile world. Same world." Truer words were rarely ever spoken. Love it! Sharon draws us in with quotes and helps us understand that we are the sum of our experiences plus the conclusions that we've drawn from these about who we are. Reading her book we get to see how this has become our reality and how our belief system steers us every single day based on what we believe to be true about ourselves. I enjoyed reading this book because it helped me gain perspective about what I'm doing and why and how I can re-adjust course any moment.

This isn't a book. It's a journey to discovering what works for you. Some call it mediation, others call

it prayer -- but we all need a path toward healing, and the only answer is to surrender. Because our journeys are unique to us, you might not share the same results the author has. That's okay. For many people, this is a starting point in search of truth and liberation. Don't be scared to explore, and don't let this broken world choose your life for you. Best chapter: chapter 4, step 5 - Take Inspired Action. Best quote: "Your time is limited, so don't waste it living someone else's life..." ~ Steve Jobs

Is life flowing to me and happening for me, is one question that came to me when I was reading this book. The how to achieve that is what this book is about and more, complete with exercises that Sharon Kirstin generously shares. I believe regardless of your creed, if you are ambitious with a spiritual nag, you will find a safe spot in this great resource to uncover the mysteries of life. A great read that will likely leave you with a whole new lighthouse of perception!

I think this book is wonderful, and will share it with friends and colleagues. I saw a 1 star rating on this site in which the reviewer said the author talked about herself too much. I think that was grossly unfair. Ms Kirstin establishes the fact that she knows about the pain and fear that most people face when going through change by sharing her own story. This book, along with her tools, and workbook, are a lot more than a guide to FINDING your soul's true purpose... This book will also help you take actionable steps to do something WITH that purpose - to SURRENDER to it. At one point she quotes Michael Jackson's "man in the mirror" lyrics "If you want to make the world a better place..." Love that - and think it's super fitting.

If you're like most people, you came across this book in your search for answers. I was unhappy, heartbroken, unemployed, alone - in sum, life sucked. I had tried different coaching, therapy, and even psychic advice in the past. The help didn't shift my energy like the work with Sharon did. Sharon's kind, soothing, loving, psychic and psychological energy helped me bring to light the truths I was ignoring and the lies I was telling myself. Applying all of the principals that she shares on her book *The Answers Within*, Sharon literally rebooted my energy, my mindset, and my spirituality. I am a living practical result example of what this book can do. And I can only call it true magic. This book has a soul of its own and now I'm purposefully and passionately using my strengths.
