As an artist, color is a thing of magic in my life. Color creates shapes, forms, and feelings in the artworks I paint. Laying color onto a blank page is when I feel closest to true magic, when I feel

happiest and most relaxed, and it's through what I create that I share my love of magic with the world. Through my coloring books I want to share that same magic with you. The artworks in my books are based on my completed paintings, which I have painted over the last ten years as a professional artist. I have created the coloring designs to be intricate and detailed but still fun and accessible. There is something for lovers of meditative detail while simple enough to not be overwhelming for younger colorists. When designing my books I decided to print them with two copies of each design, because I know as an artist there are always so many possibilities! I wanted to give everybody the chance of a do-over with every design, because I also know mistakes can happen, and even the fear of mistakes can hamper creativity. I want you to be able to create without fear! Try a different medium, or a different color scheme. The double pages are also a chance to share the magic with a friend, child, parent, sibling. Because sharing your creativity and joy of color is the best magic of all.

I own a number of Selina Fenech's coloring books so I am very familiar with her elegant artwork. I also really enjoy Halloween inspired designs and am always looking for new books to add to my collection (especially as there have been very few published compared to other genres.) In *Night Magic*, Ms. Fenech has provided a number of lovely witches along with Gothic style designs. I would not categorize the book as a Halloween book but rather one that includes Halloween designs. The designs are detailed and I find them fairly easy to color. While some designs have small details, the designs are not generally intricate with tiny details that are hard to color. I like to work first with my markers and then with my colored pencils as I find that that is the process that works best for me with Ms. Fenech's coloring books. Two things I really appreciate about the book are that you get two copies of each design. That makes it easy to share or to try two different colorways or mediums. The second thing I really like is that almost all of the designs have framing lines around them. It gives me a natural stopping point which gives a more finished look at the end and it also saves me ink/pencil as I don't have to color to all the edges. This is what I experienced while coloring in this book and testing my coloring medium on the paper: 25 x 2 Gothic and Halloween-inspired designs Printed one side of the page Paper is white, thin, slightly rough and non-perforated Designs do not merge into the binding and there is plenty of room to cut out pages if you choose to do so. Most designs have a framing line around the outer edge Glue Binding Alcohol-based markers bleed through the page quickly. Water-based markers bleed through in spots. Gel pens and India ink pens leave shadows on back of the page. India ink can bleed through if you apply heavily or multiple coats. Coloring Pencils work well with this paper. I found that

I could layer the same color for deeper pigment or multiple colors and I could blend easily using a pencils style blending stick. Both wax and oil based pencils worked well with the paper. Hard lead pencils can leave dents through the page. I like to use a blotter when working in the book. I use a page of card stock or several sheets of heavyweight paper under my working page. It keeps seeping ink and marring dents from ruining the pages below.

I'm pretty well gonna 5-star anything Selina Fench, because I love her artwork, I love the range and variety of art she provides us to colour. I draw, but I don't like colouring my own drawings, but I love colouring other peoples for some reason.... Her Greyscale books are great, they look good when coloured, and teach you how you can shade things yourself in books like this! I have enjoyed this book and will continue too. Another great thing about Selina Fench (And a couple others, but very few), she puts TWO copies of each print in the books she puts out. Why? Because as an artist she knows that oopsies can happen as can wanting to use a different colour scheme on the same picture! I've bought multiples of a couple of her books because of just ONE picture I wanted to keep changing the way I did it :3. So please enjoy her books as much as I am continuing too.

This is my second book from Selina Fenech, seems the quality of the paper has been upgraded slightly from the last book I purchased. Beautiful Gothic and Halloween illustrations. Paper quality is average and takes colored pencil well - markers will bleed through so put a sheet of paper in between pages to protect the next. Single sided and non- perforated. Double copies of all illustrations included in this book. Beautiful artwork!

WISH I COULD GIVE SELINA FENECH 100 STARS ON THIS BOOK. AS WITH ALL HER DRAWINGS THEY ARE SO LIFELIKE AND BEAUTIFUL. SHE PAYS SO MUCH ATTENTION TO DETAILS. PRINTED ON ONE SIDE OF PAGE ONLY, HEAVY WEIGHT PAPER, BRIGHT WHITE.

My 4th Selina coloring book, I was SO excited to get this one... AND as ALWAYS she never has disappointed me.. On day I HOPE to have them ALL... THANK YOU Selina, keep them coming and I will continue to buy... LOVE that they are doubled images as well...

Beautiful, enchanting drawings that I absolutely adore. I would love to have all of Selina Fenech's coloring books. My only qualm- and this is a big one for me- is that the paper quality is rather poor and causes alcohol-based markers to bleed instead of blend. I tried three times to change my mind

and give this book another try, but the results were consistently disappointing. Keep in mind that I did not try color pencils, so this review is only for marker-users. I sincerely hope that the publishers consider upgrading the paper (as I am not the only one who has mentioned this).

Beautiful artwork, but the black bleeds into the picture as you are coloring with prisma-color pencils. Must pretreat a mate finishing spray or something.

As always Selena's book ... Night Magic is stunning with such a variety of gorgeous drawings it makes it hard to pick one to color first! I own several of her books and this one is just as beautiful as the rest. I recommend you add this one to your collection!
