Lotion Making: 25 Lotion Recipe Guide For Beginners Hobby Or Business (Thermal Mermaid Lotion Book 1)

Synopsis

Our Summer Lotion Guide is a complete recipes book for those who only want lightweight lotions for home or for their market tables. All 25 Recipes in this publication are light weight lotions for day wear or warm weather wear. They do a great job nourishing and protecting your skin. They contain only those ingredients that you choose, so you can avoid harmful chemicals. They are better for your skin, since you can customize them to fit your needs exactly. They can be made with your favorite essential oils for custom fragrances. They are lot cheaper than store-bought lotions and body butters. With this book, you will learn everything you need to know to get started with homemade lotions today. Here are just a few of the things this book will teach you:

- How to make professionally made lotions that you can sell
- We discuss safety and precautions involved in selling your products
- What equipment you will need to make each kind of lotion
- Where to get ingredients and supplies
- Whether you need to use preservatives to prolong your lotion's shelf life
- How to clean up after making your lotion

This book contains our recipes that we have created for our product line from the artisans at Thermal Mermaid. Here are some of the recipes you can prepare today:

1. Scrumptious Vanilla Lotion
2. Goats Milk Lotion
3. Sun Block Lotion
4. Natural Light Lotion
5. Calming Lavender Lotion
6. Rosy Pink Layered Lotion
7. Aloe Vera Lotion (Burn Soother)
8. Coconut Tea Lotion
9. Complete Absorption Cocoa Lotion
10. Creamy Chamomile Lotion
11. Bare Bones Basic Moisturizer
12. Minty Lavender Summer Lotion
13. Dry Skin Soother
14. Creamy Coconut Lotion
15. Old Fashion Honey Lotion
16. Wild Rose Lotion
17. Tropical Fruit Salad Lotion
18. Cool Snap Frost Lotion
19. Lavender Facial Lotion
20. Creamy Magnesium Lotion
21. Calendula Bee Porridge
22. French Tea Lotion
23. Oatmeal Honey Lotion (For Dry & Itchy Skin)
24. Milky Lavender Lotion
25. Lanoline Body Lotion

Customer Reviews

When buying this book, I had the general picture that it will be generally DIY stuff. In my head it was going to be just another collection in my artistic library. Turns out I was getting more than I asked for. I have read any Thermal Mermaid books before. So all die hard fans forgive me for my ignorance but I am glad I stumbled upon this one somehow. The cover of the book is inviting. If you are a scents lover like me, you totally get what I am talking about. Jennifer and Hannah Tynan have done a wonderful job giving out 25 Lightweight summer Lotions. What I love most about their book is that these are Lotions they have actually made so as per the book. They are not just some pulled from the internet kind of information. I have not used any of their Lotions before so I will not attest to that but I will point out that their book is filled with a wealth of knowledge that can even be harnessed and used to create a small scale Lotions business. Not only will you learn about the recipes of the 25 Lotions but also the safety measures during preparation, Items needed for the processes and a bring recommendation on where to get the Ingredients. I really want to try all these unfortunately, one ingredient in every recipe for some reason not available in my local store. For those who want to make fresh Lotions without preservatives, this is a good place to start however for those looking into this from a business angle, the authors firmly advice against selling products in this case Lotions to clients without preservatives. Good job Jennifer and Hannah. If you are a reader who finishes a book by stalking the author's "About Me" section then you will learn the special connection/relationship that these two authors have and more insights to the Thermal mermaid books.

This book was interesting but NOT for the uninitiated at all. It isn't horrible, but gets 3.5 stars. The recipes were good, but instructions were severely lacking for a true beginner; they were inconsistent. For instance, I cannot recall seeing the words "distilled" or "purified" water in any recipe which can be misleading if this is the first book a beginner picks up. Aside from it needing serious editing, the recipes were certainly useable. If you are going to sell this stuff, then I think a higher level of responsibility must be undertaken at dispensing this information, if for any reason, to protect yourself. I applaud the wonderful business set up by mom and daughter, excellent for any kid to be part of such an experience.

This book far exceeded my expectations. While reading, I kept thinking "Well, these sound great but where am I supposed to buy these ingredients?!" and then, at the end of the book, there was a list of online vendors that sell these things. I was a happy camper. LOL. The recipes were clear as were the instructions for putting it all together. I can't wait to make a few of these, especially the Coconut Tea and Complete Absorption lotions. They sound wonderful!

I am a DIY buy and this book added new skills into my DIY bag of tricks. I tried five of the recipes and they produced fantastic results. What I liked most was that most of the recipes use natural ingredients. My favorite are the Sunblock Lotion and the Scrumptious Vanilla Lotion. It will take me time to go through all the recipes because I have fallen in love with the vanilla lotion and sunblock lotion and will be sticking with them for some time.

Very short not a lot of new information. Basic information that I have rereading other books

Most of these types of skincare recipe books are only good for products for your own use. This book gives instructions and recipes that are safe and legal for a soap and lotion maker to sell. The necessary steps, with explanations are there and easy to follow. There are many different types of lotions in the recipes. Anyone will find ones they want to include in their product line.

I find this book interesting because I'm a big fan of "do it yourself". The author makes a good job in explaining the 25 recipes, the sites where you can get the ingredients and some basic precautions you should take in the fabrication process. It is also easy to read and understand which I consider very important in any recipe book.

A comprehensive guide to making nontoxic formula products at home. It gives many options to choose from in a straight talking, easy to do manner.
