Shojo Fashion Manga Art School, Year 2: Draw Modern Looks

Synopsis

Draw Modern Looks! Expansion on the "Drawing Clothes" and "Cool Looks" chapters of Shojo Fashion Manga Art School, this title shows beginning and intermediate artists how to dress and accessorize their shojo characters in stylish clothes and accessories to fit any occasion. Readers find modern looks and fashions for all the classic shojo graphic novel themes such as: high school romances, complex dramas, stories about friendship and sweet comedies. Starting with basics like materials (primarily pencil and ink), color, movement, lines and shading, the book covers casual styles, school clothes, work attire, glamorous fancy dress and seasonal/situational looks. Loaded with techniques and tips from an exciting young artist and writer with a fresh style, this book includes great step-by-step instruction from initial lines to black-and white inked illustration to finished art in color.

This book is really helpful because it talks about much more than bodies and poses. It includes all different styles of clothing for all ages, and even talks about the dynamic of wrinkles. I am also very glad that this book shys away from that awful Christopher Hart art style.

What I like about this book is that it give a great variety of clothing styles to use as examples. Even better than that, is that unlike many books that only depict one younger good looking body type , this has many ages from children to very old. it also has a variety of poses throughout the book. we have already used this book many times in our short ownership.

I bought this book back in January when I had super trouble thinking of ideas for clothes for my original anime characters and such. This has helped A TON! Not only does it teach you where to put folds and different designs, it also entertains the common otaku by adding in some obvious 'Hetalia: Axis Powers'/'Hetalia: Wold Series' characters in it as the models! In this book, you will find very strong Hetalia references and I find them quite adorable/awesome (especially when you reach the toddler and children's fashion ;))I highly recommend this book to anyone who needs ideas on clothing ^^ Good luck on your drawings!Vhurous.deviantart.com~

I enjoy this book for the references of drawing contemporary clothing. This book can not stand alone as your sole guide for drawing the contemporary figure but it is a good book to have on your bookshelf as a guide.

Very helpful. I'm new to digital drawing, but with this book, I've gotten new tips that helps me draw and color with my drawing tablet as well as I do with good old pencil and paper. Also great for newbies out there starting out with drawing, coloring or designing.

This book really helped me in the structure of a person's body, and the proportions of an average manga character. I really appreciated this one, and I hate to admit (because I love Mark Crilley), but this one is better (well in my opinion) than Mark Crilley's new manga book.

The clothes were creative and amazing. lol FAB-u-LOU-S~! It teaches you a lot! Plenty of designs, clothing, it is detailed, doesn't SKIP like most books do. Goes through everything you need to know about fashion and other things. Love it! It goes with the title! Recommended! Trust me, try it! Plus it has some Hetalia stuff in it xD This book is probably for "medium artistes" like me. Decent enough,

but still need to learn a lot more. Even though I recommend it to medium artistes, it's for everyone! Even my Sister was into it!

I've been a fan of "Shojo Fashion Manga Art School". I use these book as a reference for clothing and more. With this book to my collection I get more clothing, a study of different human ages and more. I Love this book!
