Violet Findley is the author of several books for teachers.

I bought this book for my niece, due to the education system not teaching them cursive any longer. It has really helped her alot

My third grader LOVES these riddles! They make daily cursive fun, instead of work. If this had a page printout of the upper and lower letters with arrows, it would be perfect. Without arrows, the student will have to learn correct letter formation somewhere else. The book format:-- Uppercase Letter page (no arrows)-- Lowercase Letter page (no arrows)-- 40 Riddle pages with three words to copy, then a riddle and answer to copy-- All practice pages include a tip for improving your cursive

(like checking slant, letter shape, etc.) This is a reproducible book designed for teachers. It is meant to be photocopied! I've noticed that the lines for writing the riddle photocopy pretty light, so be sure to adjust your printer settings to a bit darker than normal. If you are looking for lots of individual letter practice, you might try Evan Moor's Daily Handwriting Practice: Contemporary Cursive instead. Daily Handwriting Practice has much more individual letter practice at the start of the book. We use both books daily. My daughter's favorite is definitely this riddle book! However, we did use a dry erase cursive board first. It had all the arrows as well as beginning points and ending points to show letter formation. After she knew how to form the letters correctly, we moved to colored pens and cursive practice books.

My daughter finished her beginner cursive book last month and got to pick out her next workbook as a reward. This one was a no-brainer. She loves it and wants to practice cursive first thing every day. And she loves the jokes...really cute.

If you want your child to learn the basics of cursive handwriting and your child loves jokes, this book is a great combo of jokes and cursive handwriting. We are homeschoolers and I wanted my son to be able to read cursive and understand the basics for writing it and it has met our expectations.

Cheesy jokes, but that's the appeal for our family. Our daughter loves to practice writing and then the laughs (or groans) she gets when she uses the jokes on other family members. Great at home learning tool.

I bought two copies - one each for my 2 kids. Yesterday, one of kid, without been prompted, told me that he actually enjoyed practising cursive using this book. Also, the riddles have been a feature in our daily life - where the kids will challenge the adults with riddles. This certainly increases the interaction level amongst family members.

Cute but wrong version of cursive that my district isn't using. I don't care, I'm using it anyway!

This is for my 6.5 year old who wants to learn how to write incursive AND learn how to tell jokes.....and you have NO IDEA how far my jaw dropped when I saw that I could combine these 2 very things!!!!!!!!!! AWEEEEEEEEEEEEESOME!!!!!!!!!!
