Power Game (GhostWalker Novel, A)

Synopsis

In this sizzling and suspenseful GhostWalker novel by the #1 New York Times bestselling author of Spider Game, two lovers discover there's no telling who will come out on top. When radical terrorists take hostages in Indonesia, Captain Ezekiel Fortunes is called to lead the rescue team. Part of a classified government experiment, Zeke is a supersoldier with enhanced abilities. He can see better and run faster than the enemy, disappear when necessary and hunt along any terrain. There are those in the world willing to do anything for power like that... A formidable spy genetically engineered to hide in plain sight, Bellisia rarely meets a man who doesn't want to control her or kill her. But Zeke is different. His gaze, his touch they awaken feelings inside her that she never thought possible. He's the kind of man she could settle down with if she can keep him alive...

Customer Reviews

Power Game is the thirteenth installment in Christine Feehan's Ghostwalker

action-packed PNR series. This book was a return to Team Four who have set up their fortress in the bayou of Louisiana. Following the lives of a group of enhanced men and women, who are sometime chemically paired as a means of control by the brilliant yet sociopathic scientist, Peter Whitney, the Ghostwalker's natural sensory gifts are enhanced and now Whitney is experimenting with adding reptile and arachnid DNA in the hopes of creating super soldiers for the government. Power Games opens with the heroine, Bellisia, has been pressed into service by Peter Whitney on an dangerous undercover assignment in Asia. She discovers a nefarious plot by a former childhood friend, Violet, who is now a U.S. senator and is planning to serve up her Ghostwalker brethren in exchange for power and status. Violet gives the name and location of Team Four to be slated for assassination. When her cover is blown, Bellisia manages to not only escape her potential captors but escape from Dr. Whitney's handlers and a fate of being sent to a breeding program in Italy. Intrepid Bellisia makes her way to Louisiana to warn the Team Four. Bellisia is such a powerful and intuitive heroine. She can make field decisions as well as assessment people and situations before rushing into dangerous situations. She lands a job as a waitress and watches the movement of Team Four to assess whether they are the good guys. In her observation she sees and becomes intrigued with Ezekiel Fortunes. Ezekiel outwardly appears to be a distant, cold man yet from her hiding spot Bella witness how tender Zeke is with the two year old triplets, he often sings to the girls when the other adults are not around. Ezekiel is a protective alpha, at age eight he became caretaker of his two younger brothers and lived on the street when their crack-addicted mother was about to turn her sons over to a pedophile in exchange for drugs and money. Despite his protective nature, Ezekiel respected Bella's strengths and took his time building her trust. In fact, it is Bella who saves Ezekiel when henchmen sent by Violet manages to tranquilize and take him captive. These two worked smoothly as a team. It was also refreshing to return to the bayou and be immersed in the Fontenot family headed by Nonny. The little girls were just darling, they are thriving under the protection of the Team Four men and women. It was wonderful to re-connect with Cayenne and Pepper and be introduced to a wonderful new character, Donny. Donny is a force in his own right and I hope he becomes an integral part of Team Four community. Power Game ranks in my top five Ghostwalker favorites along with Samurai Game, Murder Game, Conspiracy Game, and Shadow Game. Very highly recommended.

another great ghostwalker book this one alot tamer than the other ones. The characters, Bellisia and Ezekiel are more relateable than her other more dominating and submissive characters in the previous books. the story is more action packed and romantic. Zeke wants someone to love, and is

very masculine and rough around the edges on the outside, but on the inside he's soft and cuddly and wants to take care of Bella whose scared and on the run from Whitney and trying to help the team catch Violet and kill her. Christine Feehan is an amazing writer and I read everything she writes, and i am looking forward to where the series goes. It looks like in this one she is setting up for the end of the series. I hope not because i like this series.

This was a pure delight to read. I left work early and then read this straight through. Ezekiel Fortunes meets his genetically enhanced mate and all check breaks loose. His mate Allesia ends up saving his life. They end up falling in love, killing a few enhanced soldiers a and more. Spoiler alert for those who love this series...Violet finally gets what she has coming!!!!

There are so many good things about this book and this series that is couldn't possibly write them all here. I found this series thanks to a wonderful bookstore owner who suggested it and I was hooked from book one. We're now on book thirteen and I would read one every week if she would write them that fast!This is a series about enhanced soldiers. Part of the program they volunteered for and then the man running the program decided to take it one step further and enhance their DNA. They are called the Ghostwalkers because they move silently and by the time you are dead or dying they're already gone.Another of Whitney's experiments was to pair them with enhanced women in the hopes of getting the perfect soldier. These men are alpha times a thousand, but when they meet their woman and the two join together that alpha goes into protect mode and he will do anything to make sure she is safe and happy.This story is about Ezekiel and Bellisia. She is still with Whitney when this book starts and is somewhat of a chameleon but more in the octopus family. She can blend but she has venom in her bite as well.When she finds out that Ezekiel and his team have been sold out she goes to see if they are worth saving. Once she decides that they are she actually saves Ezekiel from being killed. But when his team finds her and ties her up she feels betrayed. She doesn't know that they didn't get the note she left for them.When Ezekiel is on an errand for Nonny he is stopped in his track by the smell of vanilla and oranges, he follows it to a cafe and finds Bellisia. He is immediately smitten and then when she saves his life later he is completely humbled.Once his team accepts her, they have to protect her and teach her. They care for one another beyond imagination and she proves to be part of the family. But the journey to get there is filled with assassination attempts, betrayal, a little fun and a lot of action along with a lot of love.You really need to read this series for these books to affect you the way they do us die hard fans to get a full background, but if you can't start with this one you will be completely hooked like I am.
