Tutor Ted is a test prep tutoring company that has helped thousands of students to achieve their best ACT scores. The Tutor Ted philosophy is simple: when students know the content of the test and have strategies to apply that knowledge, the test becomes much simpler, much more predictable and test scores go up. The original "Tutor Ted," Ted Dorsey, scored a perfect 36 on the ACT. He teaches students to see the simplicity behind the test and helps them to believe that once you know what's on the test, the test makers cannot fool you. Here is what is included in this book: All of the science knowledge required on the ACT Science Test over the past fifteen years! We combed through our library of over 60 real tests to find all of the specific science content that ACT has required students to know and published it in this book. Training exercises broken out by topic to help students develop their knowledge and skill. Do you know how to use a semicolon? Or what it means when two variables are inversely proportional? Once you know that stuff, the ACT becomes a much easier and friendlier test. Practice questions just like what you'll see on the ACT We model all of our questions off of previously administered ACT exams. That way, you know what to expect when you get to the test. Strategies for attacking every section of the ACT Part of what makes students successful on the ACT is knowing the content; another part is knowing how to approach the test. This book offers strategies and ways of thinking that will make any student better at both the Reading and the Science sections of the ACT. Simple, clear, and practical tutorials At Tutor Ted, simplicity is our style. We specialize in clear and useful lessons. After all, if you can't understand it, you can't use it. Techniques for approaching double reading passages What if we told you the new wrinkle the ACT introduced "paired reading passages" actually make taking the test much, much easier? Tutorials and practice prompts for the new, enhanced ACT Writing Test Learn how to make an essay "blueprint" the simple way to structure and organize your essay so you deliver on all the requirements of the prompt. ## Customer Reviews

Ted Dorsey (the original Tutor Ted) has been tutoring students for the SAT and ACT since 2000. He is a graduate of Princeton (A.B., English) and UCLA (M.A., Education). Ted earned a perfect score on the SAT (1600) and PSAT (240) in high school. Since then, he has earned perfect scores on the ACT (36), SAT Subject Test in Literature (800), and SAT Subject Test in Math Level 2 (800). He is the founder of Tutor Ted, Inc., the author of four test prep books, and proud father to two cats, TK and Max.

Just took the ACT today and felt completely prepared! It's not dry and keeps my interest but still is able to teach me!

I think Ted and his team did a great job on this book. I am using it with most of my students; I think the best section is the Math Review but all of the advice in the book is worthwhile.

Great reading

I love Tutor Ted's witty approach to test prep in this book! While most prep books put young people to sleep before they can benefit much from the content, this one includes humorous side notes, clever strategies, and lots of sage advice delivered with just the right combination of encouragement and attitude. Some of my favorite parts of the book are "how to be a science ninja," approaching the optional writing test using a "brain tsunami," and using "caveman notes" with the reading test. I highly

recommend this entertaining and informative approach to getting ready for the ACT!

Wow! This book does a wonderful job of presenting a stressful and boring subject in a fun and lighthearted way. It manages to stay entertaining while still covering every aspect of the test in-depth. Not only that, but it is currently the only book on the market to cover the new essay and the new dual reading passages. I have been teaching the ACT for ten years and this is the best ACT prep book I have ever seen.

This guide was a life-saver. As I had been in the dark about the content and specifics of the ACT, it guided me with details about each section while providing valuable and simple techniques to use. I am now ready to tackle the test with much less anxiety and more light.

This book has been a lifesaver. I was a bit lost when it came to this stuff but it will be great for my daughter. The book is a very light read, easy to get through and has its funny moments. It has a step by step process to go over strategies to get through test. Then it goes into the many sections (which are easy to flip through as there are "tabs" on the right side of each page) of the test and there are places to take notes throughout the book. I wish this book was available when I took the test years ago. Would have been a much easier process.

This book is really well put together for students - it's clear, helpful, and funny! It's laid out in a manageable way with blocks of helpful information and tips interlaced with hints and humor throughout. Tutor Ted's humor combined with his explanations of the material and hints for success on the tests help make the ACTs seem a lot less daunting. This is a great book to get for students preparing for the ACT.
