Sustainability: A Bedford Spotlight Reader

Synopsis

Sustainability explores questions around the central concept of sustainability: What are its foundations and politics? How do crises challenge sustainability? How is sustainability connected to local and transnational environments? How is sustainability connected to tourism and recreation? Readings by a range of ecologists, urban planners, philosophers, geographers, reporters, artists, and ordinary citizens take up these questions and more. Questions and assignments for each selection provide a range of activities for students. The website for the Spotlight Series offers comprehensive instructor support with sample syllabi and additional teaching resources. The Bedford Spotlight Reader Series is an exciting line of single-theme readers, each reflecting Bedford's trademark care and quality. An editorial board of a dozen compositionists at schools with courses focusing on specific themes assists in the development of the series. Each reader collects thoughtfully chosen selections sufficient for an entire writing course—about 35 pieces—to allow instructors to provide carefully developed, high-quality instruction at an affordable price. Bedford Spotlight Readers are designed to help students from all majors make sustained inquiries from multiple perspectives, opening up topics such as money, food, border crossings, music, humor, subcultures, happiness, monsters, sustainability, and gender to critical analysis. The readers are flexibly arranged in thematic chapters, with each chapter focusing in depth on a different facet of the central topic. The website for the Spotlight Series offers comprehensive instructor support with sample syllabi and additional teaching resources.
