Clear Home, Clear Heart: Learn To Clear The Energy Of People & Places

Synopsis

Have you ever entered a room and it just didn't feel right, yet you couldn't explain why? Do you sense a natural comfort with some people but are immediately stressed by others? The truth is that we're all influenced far more than we realize by the invisible energy of the people and places around us. This, along with difficult experiences in your past that still weigh you down, can keep you from being a creative force in your life. Clearing is a gentle but powerful way to release the old stress you're still carrying from your life history, as well as transform how you're affected by the energy around you each day. Many people experience immediate shifts in their energy during a clearing, and significant change often unfolds in the days and weeks afterward. In fact, clearing has even been described as "accelerated meditation" because it can lead to a sense of calm and happiness that typically results only after years of a mindfulness practice. In this simple, elegant guide, Jean Haner teaches you, in easy-to-follow steps, how to clear your own energy or that of any person, as well as bring harmony to the energy of the spaces you inhabit, so you can reclaim your vitality and joy, and open up infinite new possibilities in life. Healers, intuitives, energy workers, highly sensitive people, and anyone who just wants to optimize their energy and live their best life will find this to be the perfect training. Jean refines energy clearing to its pure essence—the power of the compassionate heart!

Radleigh Valentine, best-selling co-author of *Angel Tarot Cards*, *Fairy Tarot Cards*, and *The Big Book of Angel Tarot* We all desire excellent health and happy homes, and most of us put regular effort into creating both. But sometimes we fall short of our goals for no apparent reason. Why isn't the diet working? Why do we always fight in the same room? Why do we repeat the same pattern again and again? In her new book, *Clear Home, Clear Heart*, Jean Haner explains that stuck energy could be the culprit and offers easy ways to address it using the ancient Chinese Five Elements.

Engaging and to the point, I strongly recommend this book as a must-read for anyone interested in improving their health, environment, and life in general. • Vicki Matthews, author/blogger at Ask Vicki: Relationship Remedies Using the Five Elements • Jean Haner has a rare gift of linking the practical and the sacred. She opens up a world and guides us effortlessly through it. The information in *Clear Home, Clear Heart* is inspiring, empowering and accessible; the techniques are life changing. • Virginia Bell, author of *Midlife Is Not a Crisis: Using Astrology to Thrive in the Second Half of Life* • Jean Haner's book was refreshing in that up until now I've always considered clearing to be something that was done for me rather than by me. I didn't consider that I could learn this process and put it to use for myself and others. • Of particular interest to me is the connection Jean made to mindfulness and that one can learn to clear and immediately let go of the emotions or feelings that come up. I've recommended Jean's book to a friend who is extremely sensitive to other people's energy; it will be a wonderful tool in the development of her ability to cope with particularly toxic people as well as the day-to-day situations she finds herself in. • Susan Opeka, founder and CEO of The Present Moment, Inc.

Jean Haner is a natural intuitive empath, able to physically feel and work with subtle energy. Highly sensitive as a child, she easily absorbed other people's stress and was too affected by the energy held in environments. But through 30 years of training, research, and experience, Jean transformed her sensitivity from a challenge into the power to clear and bring balance to the energy of people and places. People all over the world have discovered in Jean's workshops a community of like minds, who support each other in their commitment to a more conscious path, one that is based on the power of the compassionate heart. When I first started reading this book, I related to most of her initial descriptions, especially parts about being able to sense energy, and accidentally absorbing the energy of other people and places I visit. She has a wonderful conversational writing style that is crisp and easy to read, and still efficiently gets through information. She clearly has direct experience from her many workshops teaching this material, and is able to teach efficiently and with great humor. I'm someone who has always been sensitive to energy. After I gave birth to my second son, I became extremely anxious, which is not my normal personality at all. I ended up finding a healer who figured out that I had absorbed the extreme anxiety of the woman who had been in my postpartum hospital recovery room before me. It's wonderful that there are people who can do these types of healings and clearings, but it's quite expensive. I wanted to be able to do it for myself whenever I want or

need. I'm so excited to get into her techniques of how to clear energy... I'll update my review after I try the techniques. So far the book seems wonderful.. I'm having a hard time putting it down to go to bed! Update 3/16/17: I happen to have a nice pendulum handy from an energy kit someone recommended a while back (the Donna Eden Energy Medicine kit). She says you can even use a damp teabag, but if you're ordering this book, you might want to order yourself some kind of stone/crystal pendulum. The moment I started the exercises, they instantly felt like they were working. The pendulum did exactly what she described it would do. It's exciting that she first recommends you clear for someone else " I've been trying to find a way to contribute more to the people in my life for a long time, and within minutes I felt like I was successfully clearing energy fields for others and myself. I was able to do a full clearing for four friends and family (with their permission) on my first day. Two of them said they didn't feel anything different, and one person said they felt nauseous at one point, and tired after, and one of them felt thrilled after I was done. In the book she says all of this is normal. Update 3/17/17: I got into the house clearing section of the book today. I was able to make a dowsing rod out of a wire coat hanger and a pair of pliers (as she describes in the book) that worked perfectly. I was able to quickly figure out that the primary energy disturbance in my house was coming from my sofa, which was a nice quality piece I bought on craigslist earlier this year. The pendulum confirmed that there was some disturbed energy left in the sofa from the previous owners. I don't know what it was exactly, but I was able to clear almost all of it that day, and did a second clearing of the sofa the next morning. The second clearing only took a few moments to get the last bit of disturbed energy out of the sofa. 3/21/17: It just keeps getting better and better. Wow. The more I practice, The more I'm able to do. I do recommend reading the entire book. She's not repetitive, and there are a couple warnings and recommendations in each section that should all be read. I learned a few things the hard way, like clearing too much in my home all at once, and getting a bit overtired. Thank you Jean for publishing an absolutely incredible book. I can't tell you how much it's changed my life. Thank you, thank you, thank you for you refining these techniques, becoming such a great teacher, and creating this beautiful book.

Great new book from Jean Haner. She has a beautiful way of describing this type of work. Best of all helps you understand and find ways to move through life and states of imbalance in a better way.

Jean Haner has written another powerful and important book. This work is far-reaching and deep: it might take a little while to wrap one's head around it. However, it is worth the effort and investment! These techniques have already had a significant effect on my life, and the lives of those

that I have cleared. Haner is a genuine sage, and it is a pleasure to dive into this work with her guidance.

I LOVE this book! It is so clearly written and gives such great examples of everything. I was so intimidated by chakra clearing and reiki methods prior to reading this book. But I really feel confident that I will be able to do clearing on myself and others. Particularly because I work in an incredible stressful job, where I often feel drained, as if I am a sponge who absorbs the negative energy of my clients and colleagues.

This book is easy to read and follow, learning how to clear energy with yourself, others and spaces. This is not a new subject to me so I appreciated learning new information. I recommend keeping a journal of notes as you read it so you can practice the exercises. After reading this I would love to do a workshop with the author.

Jean provides only the best of information in a manner which is readily understood.

Good to know this can be done, clear a room in more ways than one-lol Can't wait for some free time to try this out! Very intrigued by the method, easy read, but will take time and patience.

Jean Haner lays out clear and precise methods for energy clearing that can be followed by those new to energy clearing or those more seasoned. Great book. A definite recommend.
