Queen Of People's Hearts: The Life And Mission Of Diana, Princess Of Wales

Synopsis

The tragic death of Diana, Princess of Wales, triggered an unprecedented worldwide outpouring of grief from the public that adored her ever since she was first identified as the girlfriend of the Prince of Wales in 1981. Ever since August 31, 1997, people have struggled to account for the depth of the impact she seemed to have on people's hearts and minds. First the little girl who felt that she had disappointed her family by not being a boy, then the schoolgirl who preferred pranks to studying, then the shy kindergarten teacher who won the heart of Prince Charles, Diana's anonymity ended forever only a few weeks after she began dating the heir to the British throne. Over the next 16 years, she lived her life in the public eye - a smiling, dutiful royal wife and mother who eventually rocked the monarchy to its foundations by disclosing the details of her troubled marriage to the world, shining a light on the hidden life of the notoriously private royal family. This book examines the contrast between the private Diana and the public princess - the troubled yet radiant woman who believed that one must suffer in order to have compassion for others.

Customer Reviews

I never get enough.....reading stories of Diana Princess of Whales. She was extraordinary beyond belief. Taking on the Royal family was a very brave thing to do. I firmly believe that Charles was totally responsible for the breakdown of the marriage. He is a coward and a very selfish person. This narrative was well written and very straight forward. The world will never forget Diana. She was loved by all.

So very much enjoyed this book. It cleared all the nasty rumors that were said of Diana which I always felt were untrue. She was the people's princess in every way and came back strong at the end of her short life.

I enjoyed this history of the Royal family, and would suggest it as great insight into how this fairytale marriage went so wrong.

A lot of details unknown to me and I have read almost every book about her. Nicely written with no choosing sides but factual and well argued.

Ok book. Nothing really new except the first few chapters had a few things. Ended too abruptly. Wondering what the point of the book was?
