Someday I will learn how to read maps like this. Heading for Maine and will soon need a Maine map to go with the PA. one. :)

Rand McNally is simply the best maps out there. Sometimes you simply need to look at the different routes to get somewhere and see a bigger picture, the GPS just doesn't do that.

Excellent, no waiting for the server!! Love these real maps! Recommended to real people only.

This map is in fact a good map of Pennsylvania; however, half of the state is on the front side and the other half is on the back. I had intended to hang this on my wall and map out various locations throughout PA for reference but, unfortunately, this map is absolutely useless for that purpose. I gave it three stars because it had all of the information that I feel a decent map should have. I didn't give it five for the poor choice of splitting the state into two distinct sections.

Yes, it's a map and I can read it.

Still like using a paper map!

Had some difficulty finding a detailed & comprehensive map of Pennsylvania in stores or through the local AAA office. This map is exactly what I was looking for!

I used this map for a craft project and the paper is actually too thin for that. It tore a little when I tried to decoupage with it. As a map on its own it's okay, even for its intended purpose the weight of the paper could have been more substantial.
