## Customer Reviews

I would love to give it a higher rating, but the author must reconsider some of the content age group level. I found this book in the kid's free kindle book section. I was tutoring a second grader who wanted to read this book. After the first few pages the child's parent and I were dismayed to find that the term Caesarean section and other references to the child birthing process were in the book. This level of content is inappropriate for young children. Author needs to post age range for kid reader's some where.

The photos in this were beautiful. Someone did a great job taking and editing them. However, the pages with the text on them were hard to read. Someone needs to re-edit this and change those pages so that you can read them easier. Also, it was really annoying that the full spread pictures, were cut in half and on separate pages. If those things were changed, that would make this book much more enjoyable. Overall, nice puppy book.

Cute picture. Cute dogs. What's not to like.

My grandchildren and I thought this was one of the cutest books ever!! Better than any car on the internet!!!!

Cute book with wonderful pictures of various breeds. The facts about puppies are informative even for adults but will hold the attention of young children as well.

It was hilarious!! highly recommend it Please read it! There are the cutest puppies!! loved it !Read it!
