What a helpful book that is an easy read for people wanting to get healthy and become animal and environmentally friendly! In addition to the creative and delicious recipes, the book outlines reasons

that people should consider a vegan diet. Improving personal health is offered as the main reason people eat a vegan diet. In addition, desiring to treat animals humanely and with the care they deserve is also included. One of the most interesting points is that the grain that is used to feed cattle could be used to feed the people throughout the world who are starving. This is an especially compelling point. The book is helpful and I recommend it.
