## Customer Reviews

Judith and Martin Miller will take you on a thorough and detailed tour of each historical period of interior decorating styles. The information they present is accurate and precise, and will instill in the reader a confident understanding of the various period styles. They awaken and inspire the reader in a contagious and infectiously engagingly galvanizing way!

This is one of my favorite go-to books for true period references. I especially enjoy their extensive Victorian section which touches on all of the different types of decorating that could be called Victorian, not just ones that are cliché. This is a serious book for serious design.
