As a nurse during the Civil War Grace witnessed so much suffering. She cared for a Major making sure he was able to keep his leg and recover from his other injuries. As he recovered, they shared some of their life stories and she grew to care for him as a man. One morning, entering the tent where the Major was recovering, she discovered he was gone. Read Faith-Ann's book. You will not be disappointed. I know I will read it again and again.

Mail order brides after the civil war had to find husbands by reading newspaper ads. A series of short stories about the correspondence and courtships.

From the first page I was taken in by Grace and what was going on in the tent. We meet a Major who wants his men looked after first even though he is barely able to stand on his own and is losing lots of blood. The doctor says his leg will have to be amputated. The Major doesn't hear of this and Grace steps in. With Grace's help she tends to the Major and uses some herbs and all to help. The doctor doesn't care for Grace much or her practices. Over the days Major Cade and Grace become close he even saves her from a horrible run in which leads to a great kiss. but one morning she finds him gone. The war is now over and Grace is sent back home where her sister is no longer as she married a man out west. Weeks go by and all she can think about is the Major. A neighbor finally convinces Grace to answer an ad and there was one that caught her eye. As more weeks go by she thinks she is not going to hear back but she does with a ticket to come to him. Will Grace be able to go on without the Major? Can she find true love? I love this series and each one is a stand alone. The first page will get you and hold you to your seat until you are done reading. I voluntarily reviewed this book in

This touching and wonderful story by Faith-Ann Smith was a reminder that even in the darkest of times, love will bloom and shine a light upon us. As a nurse during the Civil War, Grace had experienced loss beyond most peoples imaginations'. Watching soldiers suffer on a daily basis, she still held onto hope. After another devastating loss she must dig deeper to find hope this time. Will this be another fairy tale or will hope shine through and show her that dreams really do come true. I enjoyed this book very much. So much so that I read it all in one sitting. I don't often find that happening these days. The story kept me occupied as it moved along at a lively pace. I look forward to Faith-Ann's next book. I received this ARC for review consideration. All opinions stated are my own.

This is a very well written book. I was captivated with Grace upon reading the first page, as the story evolved it just continued to get better. Grace first meets the Major when he is brought in with his men who have all been wounded. Against the orders of the Doctor she convinces him his men will all be treated first and then she doesn't allow the doctor to amputate his limb as the doctor feels is necessary to save his life. Grace treats him on her own and not only saves his life but manages to fall in love with him. She is heartbroken when he leaves without saying goodbye but never forgets about him. Their meeting again is what love stories are made of! You will enjoy this book as much as the others in the Nurses in the Civil War series. I received this ARC for review consideration.

Grace grew up working hard to survive and make a life for her sister & herself. For two years she has worked hard to help the soldiers she has taken care of to survive the hardships of war. Grace is a nurse in a Civil War hospital. She has taken care of some of the worst of the wounded at the same time fighting the doctors to do so. Grace uses both old and new ways to treat patients in fighting for their lives. Now a Major has come in - severely wounded, but refuses care until his men are cared for. And our story takes off ...with lots of possibilities and chances....I really enjoyed this novella - my only complaint was that it wasn't longer." I received this ARC for review consideration."

This book was excellent and extremely well written! It showed the strength, compassion, determination and resilience of civil war nurses. Grace was working in a field hospital when a group of soldiers were brought in. Their major, who was also injured, refused to be treated until his men were taken care of. The doctor then left Grace to treat him alone. Over the course of his recovery

time they get to know each other, but one day he just leaves with out so much as a goodbye. She wonders if she will ever see him again, especially since she has no idea where he has gone. This is a wonderful story which kept me reading into the night because I couldn't put it down. I received this ARC for review consideration.

Another really enjoyable book by this author. I love this series and am sorry it is coming to an end. It never fails to amaze me how this author in particular, has such a wonderful imagination to be able to think up so many different scenarios. I guess that's why she's an author and I'm not. A very well written book, as are all Faith-Ann's books and one I read in one sitting. No way was I going to sleep without finding out what happened. I particularly loved the ending. I received this ARC for review consideration and I am delighted to write a review for this highly recommended book.
