Star Wars: Book Of Sith

Synopsis

In his quest for total domination, Darth Sidious compiled six legendary dark side texts detailing Sith history and philosophy by Sorzus Syn, Darth Malgus, Darth Bane, Mother Talzin, Darth Plagueis, and himself. Together these documents form the Book of Sith. Over the centuries, the texts were passed among Force users who left handwritten notes and annotations in the margins, including Darth Vader, Yoda, Mace Windu, and Luke Skywalker, among others. Collected by acclaimed Star Wars writer Daniel Wallace and embellished by numerous esteemed Star Wars illustrators, this volume introduces new characters and history, and delves deeper into understanding the philosophies and methods behind the dark side of the Force.

Customer Reviews

" It's smartly written, there's a great running joke about the Sith'ari and the illustrations are frequently excellent."- SFX

Daniel Wallace is the author of many books, including Star Wars: The Essential Guide to Characters and Star Wars: The Jedi Path. He currently lives in Minneapolis, Minnesota.

This is an amazing introduction to the Sith. A "compiled" book from sources as early as 6900 BBY (Before the Battle of Yavin, the destruction of the first Death Star), the dawn of the Sith Order. The book gives first person accounts of many of the most famous and influential Dark Side Force users

throughout Galactic history. This is not really new material, though it is much more convenient than reading all of the original stories these legends come from. I would still highly recommend the Bane trilogy and Plagueis for a more complete story. Although this is no longer considered "cannon" parts of it still could be. The chapter "written" by Mother Talzin may still be as it concerns the Clone Wars cartoon. Until reading this, you may not know the power of the Dark Side!

1 star off because my book came with the edges of about 20 pages having the bottom edge snipped but not cut off all the way. It made turning pages a little annoying, Other than that this book was a lot of fun to read. There is a good amount to take in. I really enjoyed reading all the side notes in it.

Saw this at one of the Disney Parks and decided to buy it on as it was cheaper. This book is very cool and full of information that I didn't know about. Anyone who is a fan of Star Wars should have it. Loved the little notes throughout the book and it's very neat.

Read the Jedi Path. Great book with written comments/asides. But this book...this tomb...this wonderful Book of Sith speaks to the wondrous dark side in all of us. It's part history, part insight, but all instruction. The path to the dark side is glorious and passionate. Get it. Read it. Live it. And together will will rule the galaxy... (up until you are no longer need by me).

It's a very good book. I've only skimmed through since it arrive and can tell it's good. It's packed with a bunch of information. This is composed of several separate books and the pages change from book to book. Like some pages will have a torn tattered look to them, or graph paper, a journal type pager. The side notes are very interesting to read. It's also interesting to compare the writing style and writing voice of Vader vs Anakin's from notes found in the Jedi Path. I was surprised to see a few notes by Mace and Quinlin Vos. But Luke by far makes the most notes with Sidious in close second. I'm very excited to read this. I find the Dark Side to be more interesting. I learned this book normally cost \$20. I think I bought this for less than 10. :3

When you read this, you really feel like the great Sith Lords truly wrote it. While I cant say the whole thing was interesting, it was a really fun read that I only have two complaints about. Firstly, it was to short. I really wish this had another 100 pages to it. Secondly, the lack of Dark Jedi writers. We hear from many Sith and even Mother Talzin but there were no passages of Jedi who turned to the dark side. I would have loved to have read something written by Exar Kun or Darth Malak. Other than

that, the book was splendid and I would recommend it to anyone who was interested in the dark side of the Star Wars universe.

The Book of Sith is an excellent read!! It is comprised of 6 texts, each one is written either by a Sith Lord (Darth Malgus, Darth Bane, Darth Plagueis and lastly Darth Sidious), someone important to the history of the Sith (Sorzus Syn), or someone that is highly skilled in dark side magick (Mother Talzin). Each section offers something different in terms of content: Darth Malgus (essentially a war journal), Darth Bane (discusses the Rule of two, choosing an apprentice, and different fighting styles of the Sith), Darth Plagueis (goes in depth about manipulating the midi-chlorians of others, and oneself, in order to live forever), Darth Sidious (chronicles his rise to power, and describes how he went about creating the Galactic Empire), Sorzus Syn (describes her own exile from the Jedi order, and her group's defeat of the native Sith people of Korriban), and lastly Mother Talzin (goes into detail about her role as the clan mother and shaman of the Nightsisters, the religious beliefs of the people of Dathomir, and the different forms of magick that Nightsisters and some Nightbrothers are proficient in). The Book of Sith is an excellent read, and it gives a great amount of detail and backstory, into the history of the Sith. If you are a fan of the dark side of the force, you must own this book!!

Really nice to get an inside view into the SW universe. This book is more geared for the lore fans. If you're a casual SW fan, you might not appreciate this as much. However, if you are just a casual fan who wants to get a deeper insight into things, then this will be for you.
