great book so much of myself in it that needs to change. I’m reading it slowly to meditate on it. a must read

I love this book. I read it within a week of getting it. It has some real jewels to it if you are looking to refine yourself. I will reread. So good I bought one and sent it to a friend.

I have read all of Valorie Burton’s books and have gained a lot of life skills from each and this one is no exception. It is filled with many useful and challenging suggestion for and lasting self improvements. Although the book contains examples and questions used in other books, there are still many "nuggets" of gold found though out the read. Valorie always asks questions that make you

stop reflect and think. And there are many opportunities to have those "ah-ha" moments. Well worth the purchase and the read. Highly recommend this book.

This book listed habits that sabotage your success. What you speak and think are keys to your success. This book lists the mindsets and habits you need to be successful.

Valorie has done it again! I must say that no matter what she writes you can never go wrong in getting her book. I have everything she's written and I have purchased them for my friends and recommend her books to everyone whose looking to make a change to grow and create the life that only you can create with wise counsel.

Outstanding. I recommend this for women in all stages of their careers. This book delivers on all fronts. I just bought a copy for my daughter--this is the stuff they don't teach anymore--so valuable. The book is well written, well organized with fresh and substantive content. Have a pen and highlighter in hand. I'd love to be one of her coaching clients. Can't wait to read her other books!

This is a great book that offers a lot of insight and tips on how to elevate your level of success! If you're ready, it will rock you out of your comfort zone and cause you to look and dissect every area of your life that is not living up to par with the way a success woman speaks and behaves. Definitely a must read!
