Customer Reviews

Our "go to" reference in the Neonatal ICU. Seems to get larger each year, but goes to show there's more information. Great for Pharmacists, Advanced Practice Nurses, Neonatologists, Pediatricians and Bedside RN's. Residents and Fellows would find this useful, as well. We tend to 'tab' the most often used medications for quick reference; doesn't everyone? Always the best price on

Best medication book on the market for kids!
