Customer Reviews

William Bay is president of Mel Bay Publications, Inc. He is an accomplished guitarist and trumpet player and has performed on both instruments in a wide variety of professional settings. He is experienced as a performer and composer of music ranging from jazz and rock to the classics and sacred. He received his bachelor's degree from Washington University in St. Louis and his master's from the University of Missouri. Bill has received international acclaim for his innovative teaching methods, and he has authored over 200 books with sales in the millions.

I picked up an inexpensive used copy of this, hoping it would give us some new songs to play in church. What it had was 75 common hymns, with the soprano and alto parts pretty much as found in a hymnal. No vocals are included, and a fair number of the hymns I found were in different keys than in my church's hymnal so not really useful. The rest were often almost identical to the song in the hymnal so wasn't really giving me anything I couldn't use directly from there. There were some that had some notes transposed to stay in the recorder range, but many had very high notes (high B and high C) that for an intermediate player like me, just aren't reachable with reliability. If you want to just play some instrumental hymns with two recorders, and don't have a hymnal, this might be

worth getting. But it really doesn't seem to offer much unique music that would be that useful for doing services.

I have a music ministry and having music books such as Mel Bay presents Hymns and Sacred Melodies for alto recorders is just what I need as I am just learning to play the alto recorder. The Mel Bay books are easy to read and to follow. I am very happy with this book. Don Waters

This book has about 2 songs per page so the songs are not very long at all. I was hoping to be able to play this in church but not sure how to do that since the songs are so short? Would have liked to have lengthier songs but it is fun to just play to keep up on recorder skills. Recommend.

It is a good book i have placed it in my files; not exactly what I need right now. It is a little beyond my direction for now.

How come this book is selling for \$22.95 and up? Mel Bay lists it for \$7.95!
