Ever since I moved to Southern Arizona I've been toying with the idea of moving south of the border, so this book gave me some much needed information and insight. The author divides this book up into the fun and not so fun parts of living in and visiting Mexico, as well as food and drinks and important stuff. Information was imparted in beautiful detail amidst the personal experiences and stories of the author. I personally enjoyed reading about the fiestas and festivals, particularly "Radish Night," an event that I likely would never have heard about had I not read this book. I was also fairly entertained by the "horror stories" shared in the Not So Fun section; it was interesting to hear about frustrating and sometimes humorous situations while also learning about what to avoid in the country. I feel this is an excellent resource for northern-dwelling North Americans who are considering going to Mexico. I gave this book 4 stars because it's a little unorganized and a bit rambling, plus it could use some editing. Otherwise, the author does a magnificent job of mixing good information and history with personal narrative. I'm still not sure if I'm going to move to Mexico, but now I have a more concrete idea of where to go and how to proceed if I do.

Living or Retiring in Mexico. My wife and I have been vacationing in Mexico on and off for the last 10 years having visited many of the areas mentioned in this excellent book. Regretfully we did not have this book as a reference guide before planning our many trips to Mexico. The author provides insight from a gringo's perspective on what to expect when travelling to or staying permanently in Mexico. The author covers not only fun parts but also devotes an entire chapter on the not so fun parts. For those expats who would like to move permanently to Mexico, his chapter on the "important stuff" is a must read. After reading about the horror stories about importing, licensing and driving your own vehicle in Mexico, I would have serious second thoughts about undertaking this bureaucratic nightmare. Living or Retiring in Mexico , All You Need To Know Before You Go is written in a conversational manner making it an easy read. Whether you are planning a short vacation or a permanent move to Mexico, I highly recommend this book.

If you have ever toyed with the idea of moving or taking an extended vacation in Mexico, this book offers an insider's view. Living or Retiring in Mexico covers many popular destinations and some lesser known spots to think about. The author shares his experience across virtually all issues, challenges and delights that you should expect when moving to or travelling extensively around Mexico. It feels as if you are sitting across the table from the author and enjoying a casual chat that carries across his many experiences. The book is organized across themes, but is not too

structured to cramp the tales from emerging.

Living or Retiring in Mexico: All You Need to Know Before You Go offers an insider's guide to all things expat, perfect for anyone looking into mid to long-term relocation. Comprehensive in its delivery, Buijs tackles the full-gamut of what to expect and includes a great deal of insight from his own personal experience. With the average age of retirement being pushed further down the road, Mexico, Central and South America have become increasingly popular options for many looking into other viable, sustainable alternatives. I think this book will also be useful to the huge and ever-growing collective of travel bloggers, most of who look for affordable home-bases outside of US and Canada. For me, the most interesting section covered Mexican holidays. It's fascinating to read about the varied customs, traditions, and both national and religious holidays that the country has on offer. As a frequent tourist and expat myself, I found Buijs' guide to be practical and informative; an excellent stepping stone for anyone considering spending an extended amount of time off of the beaten path.

Easy going introduction to life in Mexico written by an expert with real hands-on experience!
