## Customer Reviews

MARCEL DANESI is a professor in the Department of Italian at the University of Toronto.

Just what I needed to learn the Italian verbs, and all in a few pages! The plastification makes it very sturdy and durable.

Great condition. Packaging was superb. Stiff inserts protected the integrity of the laminated sheet.

Great addition to my collection of Italian language learning materials. I'm very happy to have this. Fast shipping. Always appreciative of great service. Thank you.

Great material! Thanks!

This helps with my Italian studies

As a teacher of Italian for adults, who are quick and demanding learners, I know how important it is to have handy a quick review chart of Italian verb conjugations which can be very useful when you cannot remember the difference between the future endings and the conditional (they're so similar!) So it's nice to have this chart readily available to refresh my recollection of the tenses. Since we are not immersed in Italian, we need to do a lot of memorization of verb conjugations in order to master the differences in tenses. I need all the help I can get sometimes in order to remember all these tenses!

Great tool for sharpening my italian language skills. Carry it around with me; great reference
