Feminine Genius: The Provocative Path To Waking Up And Turning On The Wisdom Of Being A Woman

Synopsis

There is a particular kind of insanity running rampant in the world that compels most women to stuff down, ignore, or hide parts of ourselves in order to be acceptable, attractive, or taken seriously. Which doesn't work. It actually ensures we remain unfulfilled, miserable, and at war with ourselves—and that is a war no woman can win. So now comes the good news: There is a path to help you become the woman you are aching to become. This path is unruly, messy, a wee bit naughty, and audaciously asks you trust the very parts of you that you previously warred against. While this path has no script, map, or blueprint, you'll learn to use your sensuous, desirous, wildly feeling female body as a steadfast and trustworthy compass. This is the path of Feminine Genius. To get you started, you'll have the best of guides: women's life coach LiYana Silver. "One of the most enduringly inspiring things in my life," says LiYana, "is to watch a woman slip the Gordian knot of self-loathing, people-pleasing, and over-achieving and become simply and fully herself." Partly an irreverently reverent feminist treatise and partly a non-denominational devotional hymnal to the Sacred Feminine, *Feminine Genius* just might change forever what you know about your body, soul, sexuality, intuition, and power. In these pages, LiYana invites you to: Go deep and reconnect with the powerful parts of yourself you've hidden away Meet your innate genius: the wild, creative, and infallible wisdom of your body Brighten your everyday with hands-on practices Tap into your inner knowing so you can stop second-guessing yourself and get clear about your next steps Learn how to embrace your sexuality, emotions, desires, and cycles so you can achieve enormous effectiveness and fulfillment in life Navigate your "dark" and work with painful, difficult experiences in healthy ways Learn how you overuse your "masculine" strengths to the point of personal, cultural, and global breakdown Discover why your "feminine" isn't weak, but is one of the strongest and most trustworthy parts of you Explore the history, physics, and biology of a universe built for harmony between "masculine" and "feminine" Look in the mirror and see the face of the Goddess gazing back at you If you found a dusty bottle on a shelf of your cellar, there would be only one way to know if it contained an all-knowing genie with the power to actualize your deepest desires: open, and look inside. *Feminine Genius* is a provocative wake-up call, nudging you to uncork that fabulous flask and find out just how much magic you've been hiding. Because you do have a genie in your bottle—and genius in your body. Are you ready to open, and look inside?

LiYana Silver could be writing about anything from mushroom collecting to the stock market and my heart would sing. Her writing is gorgeous, and this praise comes from a passionate lover of language. But it happens that LiYana Silver is writing about the blazing heart of the human experience. Her description of and loving guidance into the fruitful darkness is among the very wisest and most lyrical I have encountered. I will return to that section again and again. This book unraveled and reweave the fabric of my femininity, and hence my humanity. Deep bow.

I wish that every woman had a copy of this book! It actually might be a good idea for every man to read it too. That's how important the ideas are. It doesn't hurt that LiYana has such a gorgeous way of expressing her thoughts and wisdom. Her unique turns of phrase are graceful, titillating and provocative all at once, helping them to penetrate still more deeply into your being. LiYana is so accomplished and so successful. It's hard to imagine that she had a dark night of the soul. To read about it helps us all to see that we can face and navigate our dark parts, that they are a key to who we are becoming and who we came here to be. Her wisdom on this topic serves a balm to our pain

and our wounds. Her take on where feminine genius comes from, how to find yours, and how to bring it to the world - courageous, fabulous, and so true! If you're on the fence about whether to get this book, grab it right now. Whether you are a man or a woman, it will change your life and the way you live it going forward.

In my own journey, I've purchased my share of self-help books and attended workshops of several experts. This book and this author stand out above all the rest. As a client of LiYana Silver, I can attest she knows what she's talking about because she walks the talk. In a world that likes to define many (conflicting) standards for women, LiYana shows you how to cut through that noise and connect with your innate wisdom and embody a fully alive woman. You'll get in touch with many lost parts of yourself and start to feel that wholeness you've so longed for. Do we even know what the world can be like if all women tapped their feminine genius and started living their lives from that genius? That world would be amazing beyond our dreams....and it starts with picking up this book for yourself and then sharing it with a friend. You'll be glad you did.

I'm about 1/2 way through and just loving this read. It is so clearly aligned with my Buddhist practice and other tantric practices I am exploring right now. The voice is authentic, relatable, kind and permissive for emotions. I've been exploring an alternate path that has led me away from feeling depleted for a long time, and this writer really helps me feel that's all right to do so! Our culture values this going-going-going mentality that measures physical reward and defines us by what we do instead of who we are, and Silver explores a new way to live that may be judged by others but is so much happier for me. So glad to be reading this and you will be, too.

From the very first pages of this book, I felt known, understood, held and beheld, in total safety and appreciation, with a tenderness and respect that could melt a glacier. LiYana is a true visionary, and yet is also the best friend who gets all of your dark, scary secrets and loves you anyway. Loves you BECAUSE of them, even. She is real, raw, funny, poetic and deliciously sexy. Her turns of phrase are masterful, her stories are wildly compelling and her truths are undeniable. They are OUR truths, the world's truths, and it's about damn time somebody stood up for them. Love this book!

This book is perfectly titled, Not only is it written by a true feminine genius, it really guides you on how to discover your own. Written in an exquisite, engaging and poetic style LiYana showers you with the genius she has discovered in cultivated through her life. This author is an amazing teacher

and I'm so glad that she has distilled her brilliance into this book. Every woman needs to read this. I know I'll be coming back to it time and time again. As a matter of fact, I just finished it yesterday and I'm starting again today. The content and writing style is so engaging that I even voraciously read every line of her acknowledgements. I've already gifted this book to many women in my life because it's contents are so valuable. I plan on sharing it with many others as well. Definitely read this book. You won't regret it.

I am only into chapter two and this book is a soulful treasuring . Each word drips with honey and transmits deeply her soul and core values and feminine genius as I can't wait to turn the page. However so early on I am getting such ancient wisdom of the divine feminine in every level that I desired all in one book that I savoring and digesting all of the soul work I have done in different communities integrating the Masculine and feminine genius as she shares so exquisitely with her stories and her deep experiences. I was in a dark night of the soul recently and so deeply feel held by her in this book and the divine blessings of the darkness. I am so deeply grateful for this book written by a woman that has all that desired to learn about it one book and have shared her videos and this book with so many already because I wholeheartedly believe everyone should read it. I love her already and feel her humor her love her passion and stand for all women ! And men!! Hope you all will read this book and give yourself this gift to savor your divine feminine and the gorgeous Permission to feel all of your feelings as the gold they are. Wow can't wait to read more. Thank you Liyana I feel so inspired on a deep soul level. I love all of your quotes and I love so many people you mentioned in your book too such as Regena and Annie Lalla and Alissa vitti and pema chodron. For some reason I heard the call when I first saw this book bc my friend Jena la flame shared it and I love her so much. So grateful for sisterhood and all of you priestesses living the sacred and making this planet better with your love and generosity and deep stand for all beings to honor the feminine. Namaste . I love you sister and join with you on this path of listening and honoring our feminine genius so clearly articulated expressed And felt!
