Customer Reviews

Our Lonely Planet guide was used every day as we made our way through the Dominican Republic on our honeymoon. Information wasn't always easy to find in the smaller towns (even for a Spanish speaker), so we relied on it a lot. The maps were especially helpful. However, we did occasionally run into small typos or sentences that didn't make sense. While this wasn't too big of a deal, we were more concerned that some sections were inaccurate. When we paid \$10 in a taxi to go across Santo Domingo to catch a bus that the LP said went to a certain town, we were extremely irritated to learn that that bus station did not provide transportation to our destination and never had. We had to pay for another taxi to get to the right spot. We also found that the prices listed for hotels and restaurants were much higher than listed in the LP. We were not there in the very low season, but it

also was not the highest season. Perhaps the places listed have been "discovered" and the hotels and restaurants took advantage of LP's high following. And the writers' favorite places were often some of the most expensive in town (and a little posh) - not what I have typically found in LP editions. If you're able, use the guide to as just that - but not as a bible. Ask around about places when you get into a town. Overall, we are very glad we had this along. We used it to plan out routes, get reviews on restaurants, learn about the country, do walking tours of each little area (instead of paying someone who "offers" to show you around), etc.

I couldn't have traveled to Haiti without this guide! A MUST HAVE! It gives contact numbers of hotels, (almost impossible to find anywhere else) recommendations on where to stay, and also some useful phrases in Creole. Buy this book if you're traveling to Haiti!!

When traveling to Dom. Rep. this guide is very useful and reliable. I have tried many of its places and services and was very satisfied. Prices are a bit higher now but not much, in some cases \$5 usd, in others more.

goog

Good information, well put together but the type is smaller than I expected and made it difficult to use. Otherwise it gave me the info I needed.

Great book, especially for great initial information about an area. Helped us find a cool hostel and restaurants that we would have missed if we hadn't bought it.
