Customer Reviews

I picked up a copy of this guide and it certainly helped me with Angry Birds Star Wars II Game. I was sure what to do on a few different levels, and this guide helped me get pass them!

this book is very good and i used to get to chapter 3 but this book could be better because it only goes up to episode 3 and beyond that ti does not say anything so plz change that but overall this book is a really good book but it should also include what the diffrent characters do in the game and

how to effectively use them to win.

I find it easy to learn how to play as I play the game and keeps me from being always reading.

I liked this because i canPotatoesna Minecraft the clone for rich in a nether the clone for a modern major cities are there is not a co Ltd I know that it
