Fashionary Shoe Design

Synopsis

Differing from ordinary shoe design books, this is a complete handbook geared towards practical usage by footwear designers. It includes three main sections: Shoe Style Library, Shoe Encyclopaedia, and Shoe Templates for Tracing. The first section features more than 300 styles of shoes, ranging from historical archetypes to the most signature styles in today's footwear industry. The second focuses on essential and practical information on shoe design, from materials and construction to labels and international fairs. The templates section includes both basic templates and templates for 60 styles of common footwear, from flats and boots to high heels.

Book Information

Hardcover: 144 pages

Publisher: Fashionary; 1st edition (August 26, 2015)

Language: English

ISBN-10: 9881354714

ISBN-13: 978-9881354716

Product Dimensions: 11.7 x 0.7 x 7.8 inches

Average Customer Review: 4.2 out of 5 stars 6 customer reviews

Best Sellers Rank: #101,661 in Books (See Top 100 in Books) #94 in [Books > Arts & Photography > Decorative Arts & Design > Textile & Costume](#) #206 in [Books > Arts & Photography > Graphic Design > Commercial > Fashion Design](#)

Customer Reviews

So, so. It has very basic information, for example, the section relating men shoes has the top three or four shoe styles, but it does not give an idea of proportions, etc. You can try copying their templates and enlarging them to fit your shoe last, but this is it. Ideally, the book should give an explanation on the shoe types, and explain a bit on the proportions, but it is very vague. Also, there are not guides on the assembly sequence of the shoes. It has a lot of diagrams, of course, but just wait until you want to actually make your own shoe design from it. It seems like you can get the same templates for free from the Internet. It might be good as a very general reference book, but then the title is misleading. It is not about shoe design, but rather a collection of generic shoe templates.

Great step-by-step instructions for anyone who dreams of shoe design. Definitely worth the price

there see not guides on the assembly sequence of the shoes. It has a lot of diagrams, of course, but just wait until you want to actually make your own shoe design from it. It seems like you can get the same templates for free from the Internet. It might be good as a very general reference book, but then the title is misleading. It is not about shoe design, but rather a collection of generic shoe templates.

Was delivered a day early awesome there was a tiny rip of the pink cover but overall it's perfect

Great book, I really like it

Very happy with ut
