What fun to have a well done Star Trek The Next Generation coloring book. I noticed that it seems to stop mid-series, so perhaps there will be another book in the future. There are 45 designs in the coloring book and are done by a team of illustrators (Juann Cabal, Gabriel Guzman, Daniel Maine, Stefano Martino, and Bill Mudron.) I found that their styles meshed well together and the continuity of the designs was well done throughout the book. The designs are mostly spot-on character scenes from various episodes and it was great fun to remember which one was which. I've started re-watching the series because of the coloring book as it reminded me how much I enjoy the

series. The designs are detailed but not what I would call intricate though there are parts of designs which have small areas to color. The designs are printed on one side of the page with the episode/quote on the opposite facing page. There are only a couple of things that would have made this book even better for me " more scenes in space and designs that stopped short of the binding. On the whole, I am really liking these designs. This is what I found while coloring in this coloring book and testing the paper with my coloring mediums. 45 Designs based on episodes and scenes from earlier seasons of Star Trek The Next Generation Designs printed on one side of page with quotes and Stardates printed on the back of the page Paper is white, heavy weight, somewhat smooth (but with tooth), and non-perforated

LOL It's not a story book but a delightful coloring book full of nostalgia.

This adult coloring book is so well designed! There are chronological illustrations for nearly every episode of TNG seasons 1-3 with fun quotes from each episode on the facing page. It's like taking a trip through every moving, suspenseful, quirky and fantastic moment from the first half of the series. And the illustrations are really quite detailed and beautiful. I hope we get to see a second volume that captures moments from seasons 4-7 at some point! I really love this book and I'm definitely buying copies of this for all my Trekker friends.

The pictures are great and remind you immediately of episodes, in fact the two I first did, I was able to look up the episode and find the same shot to get color pallets and such. The paper is thicker than most similar books and really does nicely with both gel pens and colored pencils, so seep or transfer of color to the back. The only minor criticism is that scenes that are drawn sometimes aren't in the correct uniform for the episode, which is odd, but they look great and you wouldn't really know unless you looked.

Incredible. Love it. Honestly they picked the scenes right from my soul. The individuals involved in making this are certainly Trek fans and their sense of humor and what they deem to be noteworthy scenes are eerily similar to mine. Honestly I wept, I laughed, I screamed. I was so overjoyed flipping through this book for the first time. THIS IS A MUST BUY. Also excellent quality illustrations. Very fun to color. I recommend a softer colored pencil.

My brother and I grew up watching and living Star Trek TNG. We still love it. I gave him this as part

of his bday package, and he was stoked. Also, he has a job with a lot of responsibilities, and coloring had been proven to be a calming activity.

It's a coloring Book ! The pages are from the first few seasons of the Star Trek TNG series. It was a hit of a gift for my husband.

I gave this as a gift to my boyfriend who loves Star Trek. He loved it! I loved how quotes from the show appear on each page
