# Teacher Man: A Memoir

## Synopsis

From the Pulitzer Prize-winning, mega-bestselling author who wore his celebrity with extraordinary grace comes a magnificently appealing book about teaching and about how one great storyteller found his voice. Frank McCourt became an unlikely star when, at the age of sixty-six, he burst onto the literary scene with *Angela's Ashes*, the Pulitzer Prize-winning memoir of his childhood in Limerick, Ireland. Then came *'Tis*, his glorious account of his early years in New York. Now, here at last is McCourt's long-awaited book about how his thirty-year teaching career shaped his second act as a writer. *Teacher Man* is also an urgent tribute to teachers everywhere. In bold and spirited prose featuring his irreverent wit and compelling honesty, McCourt records the trials, triumphs and surprises he faced in the classroom. *Teacher Man* shows McCourt developing his unparalleled ability to tell a great story as, five days a week, five periods per day, he worked to gain the attention and respect of unruly, hormonally charged or indifferent adolescents. For McCourt, storytelling itself is the source of salvation, and in *Teacher Man* the journey to redemption -- and literary fame -- is an exhilarating adventure.

## Customer Reviews

For 30 years Frank McCourt taught high school English in New York City and for much of that time he considered himself a fraud. During these years he danced a delicate jig between engaging the students, satisfying often bewildered administrators and parents, and actually enjoying his job. He tried to present a consistent image of composure and self-confidence, yet he regularly felt insecure, inadequate, and unfocused. After much trial and error, he eventually discovered what was in front of

him (or rather, behind him) all along--his own experience. "My life saved my life," he writes. "My students didn't know there was a man up there escaping a cocoon of Irish history and Catholicism, leaving bits of that cocoon everywhere." At the beginning of his career it had never occurred to him that his own dismal upbringing in the slums of Limerick could be turned into a valuable lesson plan. Indeed, his formal training emphasized the opposite. Principals and department heads lectured him to never share anything personal. He was instructed to arouse fear and awe, to be stern, to be impossible to please--but he couldn't do it. McCourt was too likable, too interested in the students' lives, and too willing to reveal himself for their benefit as well as his own. He was a kindred spirit with more questions than answers: "Look at me: wandering late bloomer, floundering old fart, discovering in my forties what my students knew in their teens." As he did so adroitly in his previous memoirs, *Angela's Ashes* and *'Tis*, McCourt manages to uncover humor in nearly everything. He writes about hilarious misfires, as when he suggested (during his teacher's exam) that the students write a suicide note, as well as unorthodox assignments that turned into epiphanies for both teacher and students. A dazzling writer with a unique and compelling voice, McCourt describes the dignity and difficulties of a largely thankless profession with incisive, self-deprecating wit and uncommon perception. It may have taken him three decades to figure out how to be an effective teacher, but he ultimately saved his most valuable lesson for himself: how to be his own man. --Shawn Carkonen

Starred Review. This final memoir in the trilogy that started with *Angela's Ashes* and continued in *'Tis* focuses almost exclusively on McCourt's 30-year teaching career in New York City's public high schools, which began at McKee Vocational and Technical in 1958. His first day in class, a fight broke out and a sandwich was hurled in anger. McCourt immediately picked it up and ate it. On the second day of class, McCourt's retort about the Irish and their sheep brought the wrath of the principal down on him. All McCourt wanted to do was teach, which wasn't easy in the jumbled bureaucracy of the New York City school system. Pretty soon he realized the system wasn't run by teachers but by sterile functionaries. "I was uncomfortable with the bureaucrats, the higher-ups, who had escaped classrooms only to turn and bother the occupants of those classrooms, teachers and students. I never wanted to fill out their forms, follow their guidelines, administer their examinations, tolerate their snooping, adjust myself to their programs and courses of study." As McCourt matured in his job, he found ingenious ways to motivate the kids: have them write "excuse notes" from Adam and Eve to God; use parts of a pen to define parts of a sentence; use cookbook recipes to get the students to think creatively. A particularly warming and enlightening lesson concerns a class of

black girls at Seward Park High School who felt slighted when they were not invited to see a performance of Hamlet, and how they taught McCourt never to have diminished expectations about any of his students. McCourt throws down the gauntlet on education, asserting that teaching is more than achieving high test scores. It's about educating, about forming intellects, about getting people to think. McCourt's many fans will of course love this book, but it also should be mandatory reading for every teacher in America. And it wouldn't hurt some politicians to read it, too. I got hooked on McCourt's books after reading Angela's Ashes and Tis. I was hoping Teacher would be as good, if not better. I found it a little disappointing. It seemed to lack McCourt's humor/wit. Of his three books, I believe Tis was the best.

I purchased this book because I saw Frank McCourt on a program about Irish pubs. I found him engaging and thought anything he had to say on teaching might be interesting. I was so right! If you like books and movies like "Up the Down Staircase" and "To Sir With Love" you'll enjoy this book because it has even more heart than those two titles. Teacher Man was even more engaging than Frank McCourt talking about Irish pubs! This is a great read for anyone that's been a student or teacher!

Frank McCourt had writing in his veins lacing his blood. Coming late to education, it's obvious this skill was innate. Certainly his powers of observation as a child were astonishing. I loved his book Angela's Ashes telling about his deprived but vibrant childhood. Frank McCourt had many difficulties to surmount but he never lost his sense of humor. In Teacher Man he tells of his years in a New York City school teaching English to kids who can't have known how privileged they were, but couldn't fail to love him. They were challenging. He reached them on their level in a way few adults, certainly very few in authority, could emulate. His modesty and humor were his attraction. He subtly urged, inspired, provoked his pupils to explore the world of ideas - that's education. His understanding of young people made his career as a teacher a gift to a generation, although we cannot help wishing he had started writing sooner. On retirement one of his pupils (a discerning wise man in the making) called out a fond goodbye and added, 'Hey, Mr. McCourt, you should write a book.' I wept at some passages and laughed aloud at others. I gave it to My Son the Teacher for Christmas. Anyone would enjoy it.

This is the third of Frank McCourt's memoir trilogy which followed up his Pulitzer Prize winning debut "Angela's Ashes" and 'Tis. This deals with Frank McCourt's teaching career in New York City. I did enjoy witty and self depreciating style of writing. I was a little disappointed that even though he dives deep into his teaching career we learn little of his personal life. I would have been interested in his relationships with his wives/children and his brother (and author also Malachy McCourt). I think this would have painted a broader picture of his life and how it influenced his teaching style. I'd only read it if you've read his first two books and wish finish the trilogy plus I think it would more sense to have the back story of the other two. Too bad he hadn't written more as I think his style is entertaining and insightful.

I see my own journey as a teacher in this story. So authentically told. You must read it. It is a primer!

I really wanted to like Teacher Man by Frank McCourt. There were bits here and there, mostly anecdotes from his time in the classroom, that were fascinating. Mostly, though, it was just ridiculous, meaningless, rambling drivel. It was very annoying to read due to the many, many quotes without quotation marks. I also felt the constant negativity about himself got old fast. Mr. McCourt was clearly a good teacher and tried hard to teach the kids English in a way they understood no matter their background and previous knowledge. Focusing on that rather than his affairs and perceived failures (many of which weren't) would have made this a much better book (reducing the amount of foul language would have been nice, too).

I don't know when I've enjoyed a book as much as I'm enjoying this one! I've read Angela's Ashes and loved it but it was a sad story. This inside look into what it was like to teach English in American schools is priceless and I've laughed out loud many times as Frank McCourt is a gifted writer in that he gives you a clear visualization of each classroom scene. I love it!

Important book to see the evolution of McCourt, throughout the three books (Angela Ashes, 'Tis and Teacher Man: a Memoire) the reader is witness of the voice of a boy, a young man in search of opportunities, and then through teaching he finds his place in the world. Human, with all the worries that a man has when has to emigrate and it is impossible to feel at home anywhere because of his Irish accent even when he was American... How he touched the life of many people to whom he could change their minds and their decision in life.
