## Customer Reviews

This book is no good. There are barely any "touch and feel" areas... The pictures are so tiny with tons of empty blank space on the pages and the smallest little areas to 'feel'. There are 12 pages. Six of which are not even touch and feel they are just shiny

with no texture (I added 3 photos so you can see the shiny pattern and 1 photo to see the tiny patch of fur). My daughter is obsessed with kitties and doggies... And she could really care less about this book and so do I. So disappointed!!!

This book was ok for the price BUT if you're looking for the "old type" of touch and feel books this is not it! It is a nice book but where are all of the furry animals?? Most of the fluffy, soft and different textured things that were in these books are replaced by little paw prints or plastic food bowls- HUGE let down in my eyes. I'm glad I got this on sale and didn't pay full price for it!

I bought this for my 12 month old son for his motor skills. The book is very manageable and doesn't tear or rip easily. These books are very reasonable in price and just the right size for my little one to grab when it's time to read to him. This is a very simply yet easy book to read as you are starting out for your little ones. He is very engaged with the colors and loves to look at the pictures. It's easy to touch as you are reading. His favorite part is the sheep haired dog with the long hairy patch. I just wish there was more touch and feel spots to touch. Over all this book is good starting out.

Very disappointing the fur was sparse. A person can do better making the book themselves. When I was a kid whether the fur was real or not there was more of it.

Try the touch and feel books from the bright baby line \*roger priddy\* over this one for sure. I purchased both and this one got sent back right away. the touch and feel spots are laughable they are so tiny. Even for little fingers they are barely noticeable. It's a shame because this would've been a cute book if it was made with larger touch and feel areas. Buy a different one first and don't waste your time or \$ on this one.

My son loves to touch and eat the fur and thinks this book is great im a little upset that it didnt include more pages with fur though.

Adorable touch and feel book about puppies and kittens. My 2 year old granddaughter loves this book, both for the charming animal photos and the touch and feel textures. Her 5 year old sister likes to read this to her also.

Cute little book and perfect size for little hands! The touch and feel on the book are not great but it is pretty comparable to most touch and feel books.
