Customer Reviews

Praise for Eerie Elementary #1: "The plot and twisted storyline will serve the beginning chapter book reader well. Word choice, action, and crisp sketches support the story, allowing early readers to develop ideas and easily follow the plot." -- Library Media Connection "Give this early chapter book to readers who want something scary but aren't ready for the 'Goosebumps' or 'Scream Street' series." -- School Library Journal "Dynamic, cartoonish illustrations amp up the action, and fun

onomatopoeia provides atmosphere....Readers who relish the action of Dav Pilkey's Ricky Ricotta series and the just-beyond-safe scares of R.L. Stine's Rotten School titles may want to enroll at Eerie Elementary." -- Booklist"Chabert hits just the right horror note for transitional readers, with thrills that include a dash of absurd humor and fall tactfully short of being truly frightening....Simple sentence structure, some repetitive (but not tedious) vocabulary and a direct storytelling style make this a worthy and creepy addition to the Branches series, and the scary story aspect will likely pull in a few reluctant readers. Ricks' illustrations add an appropriately gloomy but playful touch." -- Bulletin of the Center for Children's BooksPraise for Eerie Elementary #2:"Plenty of action words and direct sentences make this suitable for emerging readers....it will be a good fit for readers not quite ready for Lovecraft Middle School or Goosebumps." -- Booklist

EXCELLENT!!! My 7yr old, advanced but very reluctant reader, son LOVED this book. He snatched it out of my hands and read it in one sitting as soon as it arrived. When he finished he declared that the story was "EPIC". I have the first two Eerie Elementary books to thank for getting my son past his hangup with "too many words" in a book. These were the first books that I didn't have to force him to read. The stories are exciting, engaging, a little silly, and not predictable. The illustrations are lively and enhance the story. My only complaint is that there aren't more books in the series!

LOVE! LOVE! LOVE! This is an excellent series of books! Wish there was more books in the series! My nine-year-old son just loves them I was so excited to get this in the mail today!!! I am sure he will not disappoint!

My son is 7 and in second grade and he loves this series. They are specifically part of a scholastic series designed to get young readers engaged and excited about reading. My son gobbles these up. They have more action so kids do not get bored. I highly recommend these books (there are

only three so far) and other books that are part of the Scholastic Branches series.

My six-year-old son has loved this series since book #2 came out. So much so that a year ago we emailed the author in hopes that #3 would be on its way soon. He actually emailed us back and said he would be writing more! Needless to say, it thrilled my son that one of his favorite authors had actually contacted him back. Well. We've been waiting for over a year for book #3 and just finished it tonight. We loved it! The author has such a great way with keeping young kids in suspense, that saving more chapters until the next night was just torture for my son (in a good way)! This series has been largely responsible for my son's jump to chapter books, and #3 didn't disappoint. Now, more waiting until #4!

My son is on the spectrum, but very advanced in his reading skills (He's in 1st, reading at almost a 4th grade level), when we can get him to pay attention to it. I had found a Locker ate Lucy at a store and gave it to him for his birthday, and after he finally picked it up and read it (in 2 or so hours no less), he was absolutely BEGGING me for the rest of the series. I got him this and one other one, as well as the first Dragon Masters, and he's begging for the rest already. It warms my heart to see such a love of reading instilled in my little guy. He's talking about the characters as if they are schoolmates of his, and I can't wait to afford the rest of the series.

I teach 5th grade and this book is definitely written for lower grade levels, but the series has been a major hit with many of my more reluctant readers. The books are fun and suspenseful without being too scary. They are also short which gives reluctant readers success in a shorter time.

My third grade son loves this series of books. He read this in a day- his only complaint- it wasn't long enough!!! He is NOT a reader by any means so to hear him say that, I wish it was longer too! Please hurry and write the next one!

My seven year old grandson laughs out loud a parts of this book. He is enjoying this series so much!
