# The Minister's Manipulation: (An Alpha Alien Romance Novel)

## Synopsis

Love has the power to find you. Even when you're in disguise. Jamie Cohen was used to quitting things, but she refused to give up the search for her sister, Sylvie, who had crash landed on an alien world six months ago and hadn't been heard from since. Unfortunately, having a fiancé in NASA wasn't much help either. Things changed when a handsome Good Samaritan saved her from a stranger's unwanted advances. Although she thought he'd just been in the right place at the right time, when she sees him again she realizes the truth: He'd been following her. Drake Karren Rasveen, Minister of Defense to the planet Zanthar and brother of its king, took his mission to Earth disguised as a human very seriously. Here he hoped to uncover an enemy conspiracy that was threatening the lives of his people. Instead he found Jamie, a frivolous but beautiful human with a taste for expensive clothes and successful men. Still, she is his best chance to infiltrate NASA and find the data he needs. Now, if he could only keep his hands off her... Together, the pair will battle shapeshifting enemies and risk imprisonment on an alien world. But the real test of their mettle comes when Drake is forced to reveal his true form, a 7-foot tall, muscular alien creature with color-changing skin and an endowment that would put human men to shame. Can Jamie trust the fate of her sister to someone who has lied to her repeatedly? Is Drake willing to break the taboo of mating outside his race and risk the censure of his people? And will they be able to escape the alien prison with their relationship intact? Or even with their lives? \*\*

The Minister's Manipulation is a 55,000 word, complete stand-alone novel in the Lords of Zanthar series. For a limited time, enjoy the other three books in the series as a gift for picking up the book. Hope you enjoy.

## Customer Reviews

This is a follow up book but can be read alone. The first book in the three book series, The Regent's Rapture, is included after the Minister's Manipulation. So you might want to read the second book here first. Make sense? Egad...Jamie is the silly sister of Sylvia, the Astrobiologist. Sylvia went into space in Regent's Rapture to go to the planet Zanthar to study the life in the mostly water

planet. Sylvia crashes there, and finds not only plants, she finds intelligent beings ! Sylvia finds 7 foot tall alpha warrior

males that turn different colors, depending on their mood. Back on earth,

Jamie is desperately trying to find out information about her sister and why she hasn't

returned. Jamie has a scientist boyfriend at Nasa, but he just keeps putting her off, he won't tell her anything. But someone else is very aware of Jamie's existence. The humanoid

males from Zanthar have sent a representative, the minister of defense,

Drake, in human disguise to get into NASA's labs and database to see what the humans are up to. They hope to get into NASA through Jamie. It's a desperate race against time because there is also a race of shapeshifters, the Hareema, on Zanthar that are the enemies of the Zantharians. The shapeshifters want to take over the

planet. They want to take over Earth, too. These books are more space operas than erotic romances. The romance is kind of a by product of the story. There is lots of wishful thinking by both characters, but not much actually happens until at least half way through each book. These are well written books and may get more women interested in sci-fi, since the alien men are handsome, super strong,

protective, Alpha males!  
Just remember, Aliens are not bound by human morals! A third novel is also included, The Major's Mission, which is a rescue mission to Zanthar to rescue Sylvia and her sister Jamie. The Major in the mission is of course, another woman, Jennifer. Get it, Got it! YE HAW! Ride em Bareback,  
Cowgirl!

Disgusted, Jamie Cohen hit the elevator button at NASA headquarters. After 6 months, they still hadn't found a trace of her sister, Sylvie, after her shuttle crashed on an alien world. Her astronaut boyfriend promised to take her to dinner later as he walked her out of the building. On the sidewalk, the Minister of Defense to the planet Zanthar, Drake Karren, followed Jamie at a discreet distance. Although his planet had better choices for this assignment, they hoped to use Jamie to get into NASA secure areas. It appeared that their enemy, the shape-changing Hareema, were operating on Earth. A man on Jamie's train started to bother her. He and his friend got off at her stop and he grabbed her wrist. Drake had to intervene to protect her; then he walked away. But as he wandered downtown later that evening, he saw Jamie having dinner with Lance. He could not stop staring, until she saw him. So when she got off the Metro at an earlier stop than usual, he was taken off-guard. She went to the Mall then circled around and demanded to know why he was there. His cover was blown! Drake arranged to meet with Jamie at a coffee shop to purportedly discuss working together to find out about her sister. This way, she could be convinced to grab Lance's high security badge for him to get into the secure areas he needed. He was sure the Hareema were involved at NASA. And there wasn't much time to figure things out. His planet and Earth were in danger. Would Jaime cooperate, or would she catch on? Sooner or later, she would discover who he really was what then? This was a wonderful story! It was fast-paced and suspenseful right from the start. The characters were fascinating and intelligent. The twists and turns were amazing and kept the reader always on edge, waiting for the next event to happen. This was a seriously good story! I highly recommend it -- you will not be bored!

Funny how we manipulate ourselves into thinking we're interested in someone, or not interested in someone, based on some strange idea we have about the other person in our head. Drake doesn't want to fall for Jamie, his way into NASA, but the little things she does drives him absolutely insane.

Soon, she forces his hand and together they work on infiltrating NASA to find the Hareema plotting the takeover of Zanthar and Earth. Next thing they know, they have HERMAN helping them in their endeavors clear across the galaxy. But Drake's mating frenzy has started. Will he be able to save the galaxy before it kills him? And will he let Jamie in regardless of what he thinks she thinks about being the mate to a Zantharian male? I liked seeing the end off the "Lords of Zanthar" series; however, I want to see how the Zantharians, humans and Heareema rebels battle for the freedom of the galaxy. I voluntarily reviewed an ARC copy of this book. I also borrowed it through Kindle Unlimited.

Drake is the minister of Defense on his planet and in order to save his people he disguises himself as a human in hopes of finding the enemies, but the woman he finds along the way, quickly makes her way into his heart. Will she feel the same way when she finds out what he really is? Lords of Zanthar is the first Sci-fi romance series I actually liked, each book is packed with action, suspense, drama and a well written love story. Jamie and Drake storyline was exciting, I loved that they worked together to fight the hareema even after she found out he was an Alien in disguise. Although I didn't feel a complete love connection yet between them as much as I did with the prior couples in the series, I did think Their Hot Alien loving was beyond steamy which was a plus. If you are looking for a action packed alien romance this is a great series. I voluntarily read this Arc
