This is full of very sweet, delicate, and whimsical ideas for embroidery work. I like the fact that they are so easy to make and one can do so many different ones. So many patterns seem to take so long and one is almost tired of the pattern before done. If you like whimsy, and very sweet ideas to do with your thread, this is certainly a book to be cherished.

I totally recommend it! great instructions and great images. if you are a beginner, you will love this book. I love it!

I really enjoy this book. The designs are so charming just like the title says and I can add little details to my own designs from them. I thought the price was very reasonable as well. Also I like the way the designs are grouped in themes. Happy dance for this book!

There are so many patterns in this book that I love. It will take my lifetime or longer to try all the ones I want to try. So glad I found this wonderful book.

Simple designs - easy to work up - just what I was looking for. Prompt delivery. Don't need 500 designs but enough cute ones to make me happy with purchase.

I'm a beginner, self taught and am using these designs in little everyday scenes I have drawn myself. Simple stitches, a delight to sew and, of course, so many to choose from. I love it and I believe any embroiderer would find something to suit and stitch from this lovely book.

I have been looking for tiny patterns to put on greeting cards etc and this just makes it perfect for me.

Simple and easy designs. There's a large variety here. Nothing truly groundbreaking but I wasn't expecting that. There's a little bit of everything and this will come in very handy for fun quick projects and for building my "gift stash"
