Sandrine Kielt-Michaud grew up surrounded by sewing and embroidery and was taught these crafts by her grandmother who was a passionate stitcher. After leaving school, she trained as a designer craftsman at The Workshop of Applied Arts in Vésinet. Since then she has trained in scrapbooking, straw marquetry, and sewing while continually working in the field of crafts. Vintage Purses is her first book.

Love the paterns in this book! Seriously... I have already made 4. It is very clear & includs the paterns. I am a beginner at using a sewing machine & had no problems. Give this book a go. You won't be disappointed!

Really pleased with the book. Bought it for the vintage kisslock purse patterns and instructions.I think it will work well for the projects I have in mind. I wish that quality and ornate kisslock frames weremore readily available here in the US.

This is a really cute book. I recommend it if you're looking for cute ways to unload some of your fabric scraps!

The projects in this book are gorgeous....very creative and lots of great embellishment details.

Because the author is French, and the book may have originally been published in France, I found that some things were lost in translation when trying to understand the instructions. For that reason,

I'm giving it four stars. I actually found tutorials on YouTube that explained how to attach the fabric to the clasp in much greater detail. I do learn better by watching, so that may be why I needed to watch it being done. Now that I understand the fundamentals, I'm anxious to try her ideas.

Beautiful Book. Lots of interest patterns, it's so pretty I just like to look at the pictures. One day I may actually have time to make an item.

Good book. Easy to understand directions for making purses with metal frames. Patterns that can easily be adapted to your frames and lots of ideas.

this book very helpful and the patterns when making purses

good ideas
