South Africa Lesotho & Swaziland Travel Guide (Country Travel Guide)

Synopsis

Hiking, biking and flying amid craggy peaks and open plains, or watching a spectacular desert sunset, becomes possible with this guidebook. Watch wildlife in the savannah, engage in the vibrant cultures of San, Khoikhoi, Zulu and Xhosa or live it up in cities bursting with culinary, cultural and vineyard delights. Lonely Planet guides are written by experts who get to the heart of every destination they visit. This fully updated edition is packed with accurate, practical and honest advice, designed to give you the information you need to make the most of your trip. In This Guide: Unique Green Index to help you make your travels ecofriendly. Expanded itineraries take you from cape to coast or on the roads less travelled. Color wildlife chapter written by a natural-history expert.

Customer Reviews

I was looking for a travel book that had good section about Kruger National park and this one while having info on the whole country has limited value for just a single area such as Kruger. The book though is well written however the sections contain limited info. For example if you are looking for lodging you will find very few listed and this is the same for eating places. The book I found is more a summary that can be read very quickly. If you are looking for substantial detailed info on a particular area this book will have to be supplemented. There are a limited number of page maps in the copy I have but no country wide large map. That would have been handy.

This review is for the Kindle version of the 2009 LP South Africa, Lesotho, Swaziland guide book
PROS- Very good content from Lonely Planet; meets expectations
CONS- Kindle version is difficult to navigate, especially the TOC; regardless of whether you're reading on an iPad, Kindle, or computer- No color photographs, maps or other visuals

I am positively surprised by the level of detail and professionalism. A true companion to plan your visit well ahead and to avoid subsequent disappointments. Being now in the planning phase of my trip I just cannot wait to actually visit South Africa in March 2012 as the book brings everything to life.

Thank you LP!

Great price! Very happy. Item was as described. Brand new, helped plan my trip to South Africa!
Thank you :)

as all planet books, filled with lots of good info

Lonely Planet needs to rethink how they organize these digital versions. If they took the time to do some indexing for each entry, it would be so convenient to use. While traveling, you typically need to search for information based on location or type of query (food, transport, hotels, etc.). I found the search functionality really challenging. However, it was nice to have some of the maps available for use without carrying a bulky book. Overall it was nice to have, but I just wish it were better organized and easier to navigate within and search.

Lonely Planet guides continue to impress me. I am so excited and looking forward to everything the guide tells me about. Handy hints, helpful information and teasing me to see more and more of this country!
